WUNDERLICH METAL CEILINGS

HOUSES TRUST
ST. VINCENT

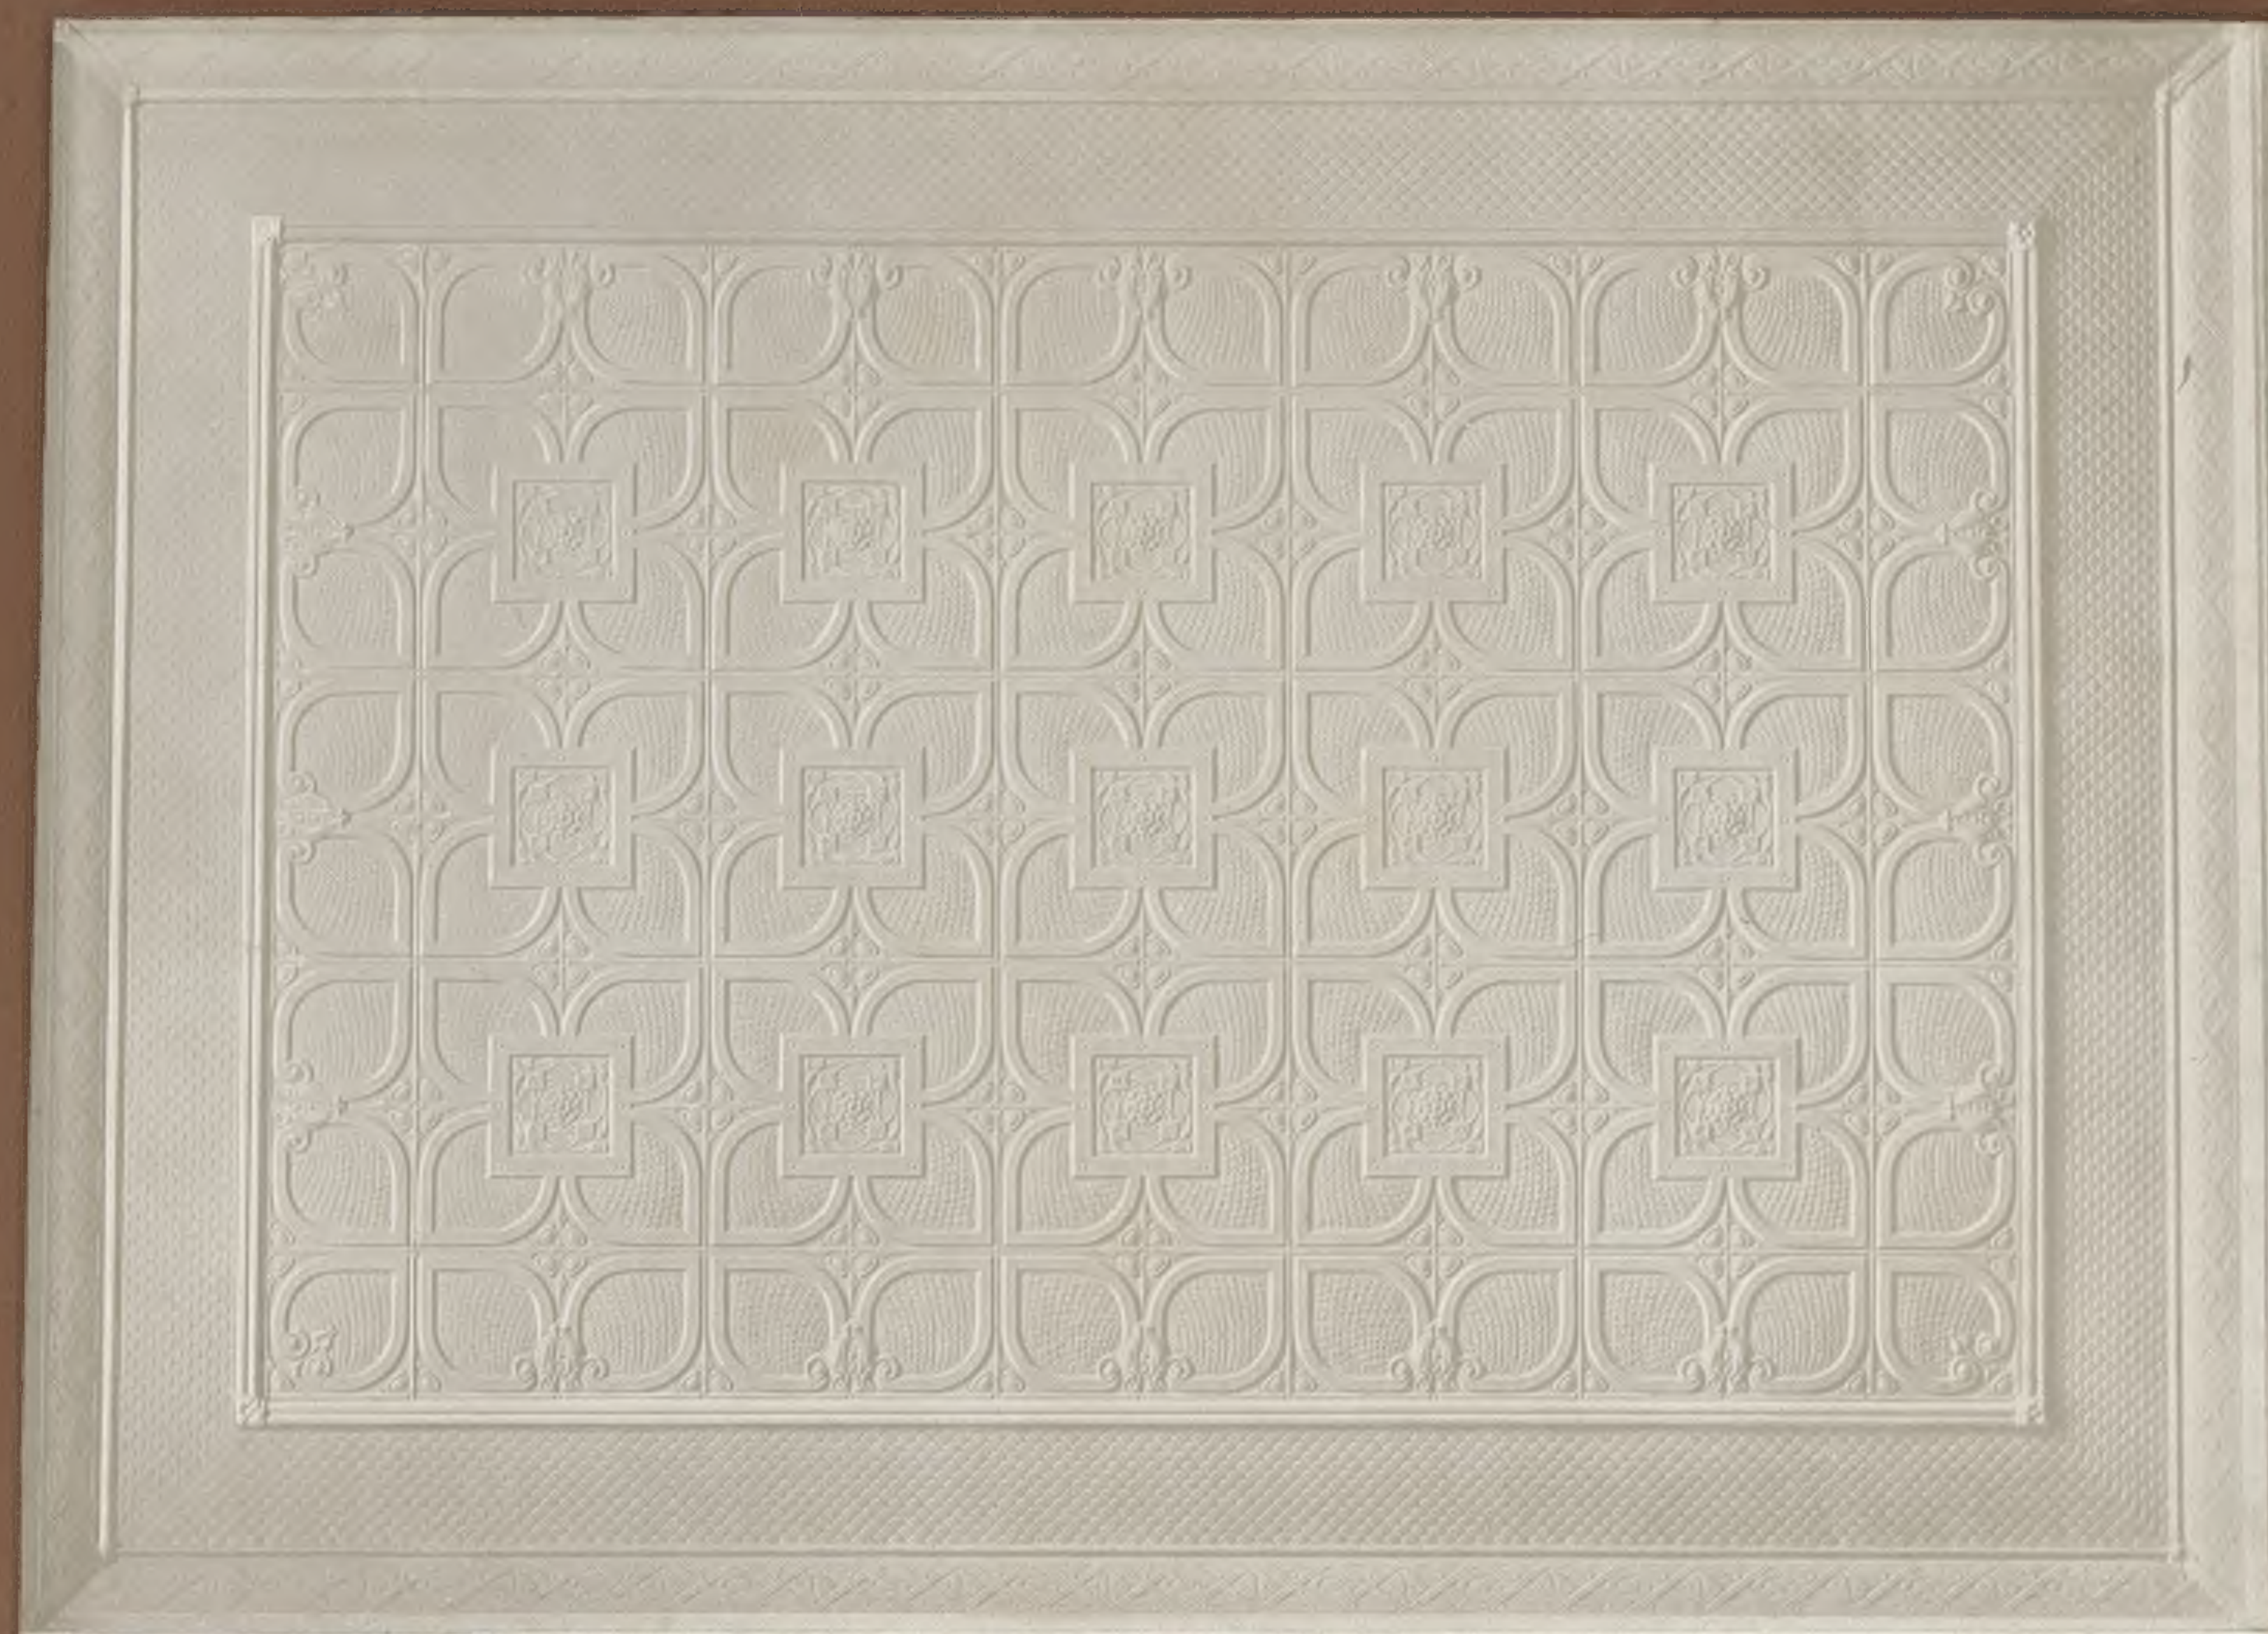

This illustration is from a photograph showing deep Moulded Panels No. 1170 (*Rd. design No. 568*) (size of panel 24in. x 24in.). These deep Mouldings give a rich coffered effect to the ceiling, the lines are broad and strong, showing the decoration to advantage. It will in general be found necessary to use an enclosing Border Moulding and Filler between the Panels and Cornice to take up any inequalities in the size of the room. Designs and estimates submitted on receipt of plans and particulars of rooms.

WUNDERLICH LIMITED. Manufacturers. Sydney. Melbourne. Adelaide. Perth. Brisbane. Hobart. Launceston. and Wellington. N.Z.

Catalogue Section II.

No. 1103. Cornice, 6in. x 4½in., and Mitre Leaves.
No. 1152. Border Filler, cut in strips any size up to 24in. wide.

Nos. 1301, 1302, 1313. Panels, Border Panel and Corner.
No. 205. Moulding and Corner Boss.

This illustration represents a surface of 15ft. 6in. x 11ft. 6in., and shows a Ceiling composed of Panelling with Border and Cornice *en suite*. The Panelling and Border Panels may be divided into one or more suitable bays to accord with the size of the room. The Border Filler between Moulding and Cornice is provided to take up any inequalities in the size of the room, the recess of chimney breast or bays. Throughout the whole of the materials assembled to form this Ceiling the details are harmonious.

VISIT our Showrooms, in which you may see a display of Modern Art Designs that cannot be equalled for their variety, and the unlimited facilities which they afford you in the selection of ceilings, from models of our work replete in every detail. Plans and estimates submitted. Catalogues sent on request.

This illustration depicts a Suite of Panels Nos. 1161, 1162 and 1163, built up to form a rectangular ceiling. The panels being of regular sizes, the space to be covered must be in multiples of 24 inches. Any irregularities in the size of the room or the formation of bays and recesses would be provided for in a border diaper filling cut in between panels and cornice.

RCHITECTS and Decorators will find in the WUNDERLICH METAL CEILINGS a material that can be adapted to the requirements of any size room or style of building. Sound in construction, germ and fire resisting—it is light in weight, and can be fixed by any tradesman. The ideal Ceiling material for Country Homes.

Copyright Design Rg. No. 808.

Illustration of a Wunderlich Stamped Metal Ceiling composed of panels No. 1360. Stock size sheets 6ft. x 3 ft. These sheets can be cut to any size, and the panels arranged in various designs to suit the size of room. The suite is comprised of No. 1361 molding, 4in. wide. Stock lengths, 6 ft. Boss No. 1362, size $4\frac{3}{4}$ in. x $4\frac{3}{4}$ in., made to fit our standard 4 in. molding No. 1361. The design of the boss allows for cutting into halves or quarters bosses to finish the mitres of molding and Cornice No. 1363. The top member of the Cornice conforms to the section of molding No. 1361. Thus a complete set of molded panels can be cut to any required size and allowance made for the inequalities in the measurement of rooms.

WUNDERLICH METAL CEILINGS

Supplement No. 10

Page 18.

Catalogue Section II.

It is not necessary for you to go beyond your means to purchase an Artistic Ceiling. Wunderlich Metal Ceilings are appropriate when installed in Cottage or Mansion and offer equal, actual value, according to the design you select and the price you are prepared to pay.

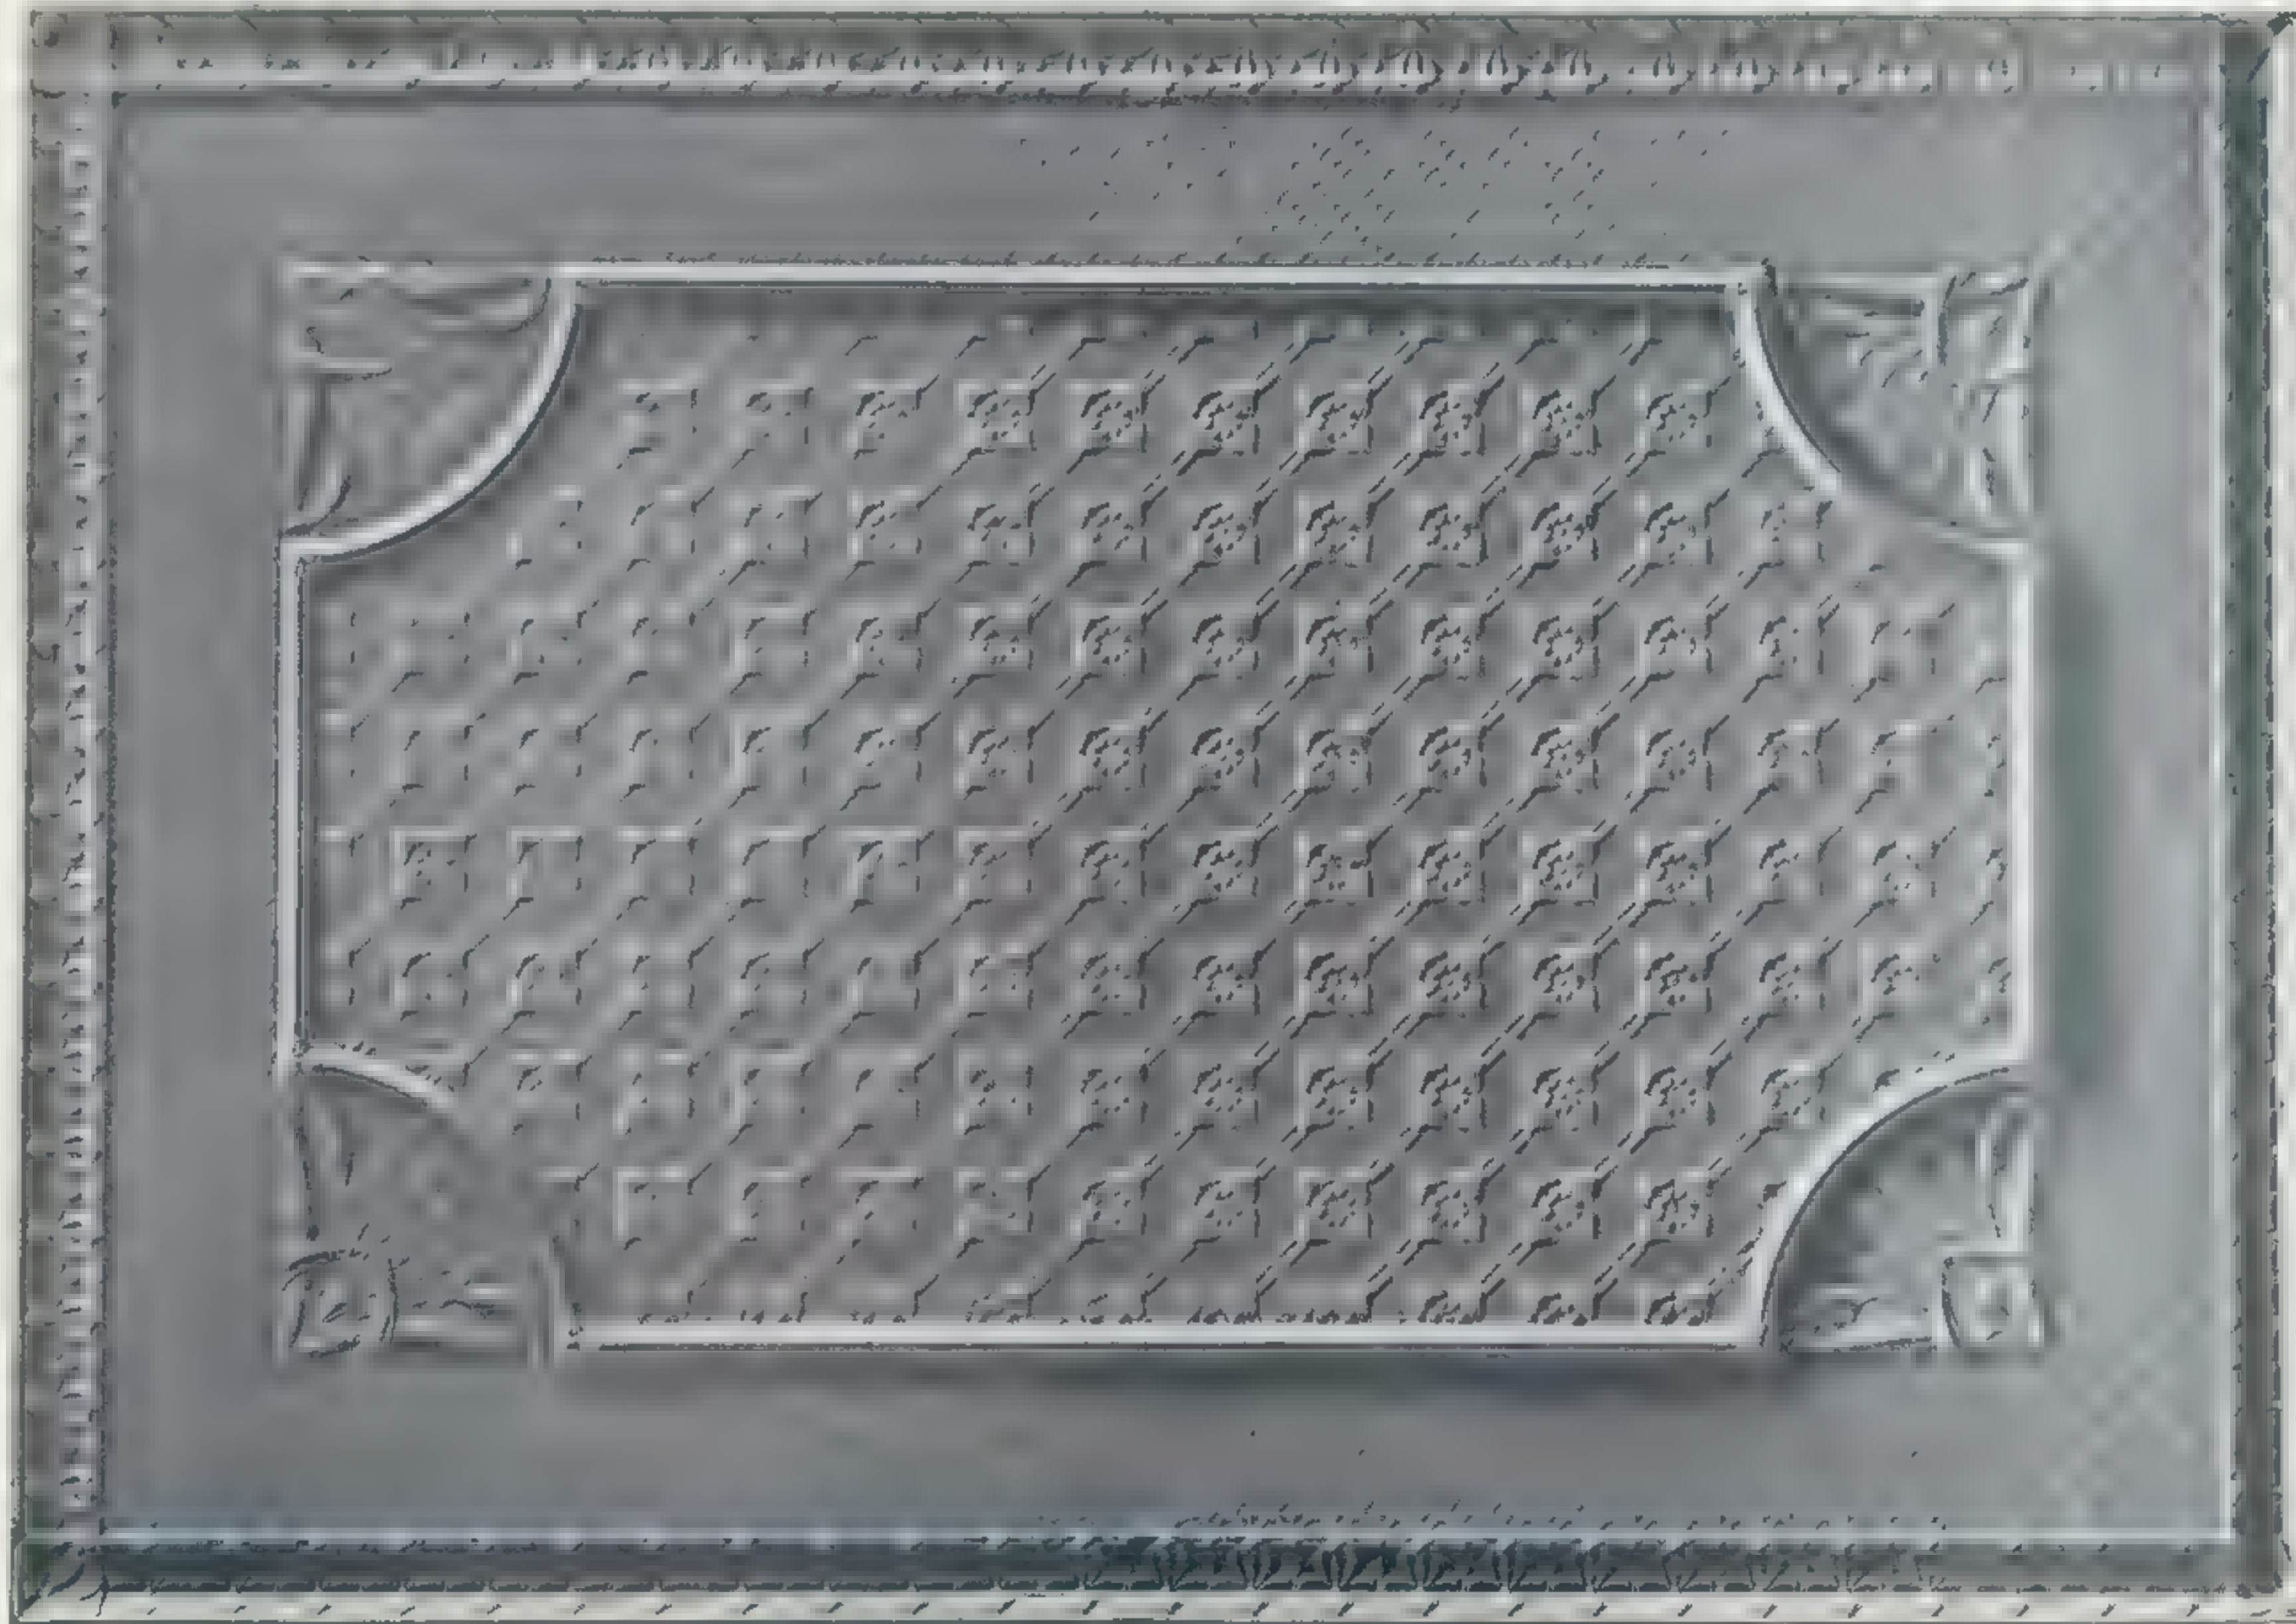

We maintain a staff of skilled draughtsmen ready at all times to furnish you with designs and estimates for Ceilings. Catalogues and Price Lists on request.

A simple and effective Ceiling Design in Wunderlich Stamped Metal. The centre bay is composed of Diaper Sheeting cut up to an inset molding, with a quadrant corner panel in which the molding is carried round to match; the outside border filler, between molding and the Combination Cornice Border and Molding, is used to take up any inequalities in the size of the room. The Combination Cornice Border and Moldings being in one piece are easily fixed, and form a neat finish to a Ceiling at a moderate cost.

Metal Ceilings cost less in the long run; there are no repairs, no cracks or discoloured Ceilings, as with the old ceiling materials.

Every sheet of Wunderlich material is fully tested and carefully inspected throughout the process of stamping and finishing.

These Ceilings are artistic as well as durable. It is *worth while* having the best materials and workmanship for our work. It is *worth while* for you to see that every sheet bears the Wunderlich Trade Mark.

- No. 1312** Border Finish, 6in. wide, 1½in. deep.

WUNDERLICH METAL CEILINGS

Page 19,
Catalogue Section II.

TIME and competition has proved the sterling value of the **Wunderlich Art Metal Ceilings**. These manufactures meet all the requirements of the investor, home builder, and architect, in the construction of ceilings in modern edifices. The artistic appearance does not necessarily mean that it is an expensive ceiling; its actual immunity from contamination by foreign elements are sound advantages in favor of healthy rooms. Take these factors into consideration when building your home.

The centre portion of this design is composed of Patching No. 1117, or the design can be varied by using any suitable panelling shown in our catalogue, the main features of this style being the centre panel enclosed by quadrant Corner Mouldings No 209, thus allowing a wide border of simple pattern diaper between centre panel and cornice. Materials employed in this design are Panelling No. 1117, Molding No. 209, Corners No. 1339, Filling Diaper No 1116, and Cornice No. 1102

THE WUNDERLICH CATALOGUE OF EMBOSSED STEEL CEILINGS. This book differs from other catalogues in one or two respects. It is especially gotten up to illustrate the adaptability of sheet metal for building uses. It not only contains examples of work done, but covers a large range of patterns, while the pages of letterpress in the catalogue contain the equally important information "**How to Fix and Decorate Wunderlich Metal Ceilings.**"

This illustrates one of our popular patterns in a new combination; it shows a most successful treatment for a large Ceiling divided into bays by girders or beams. These Panels give a distinctly decorative effect in continuity. The patterns are Centre Filling No. 1104, Borders No. 1069 and 1070, Molding No. 1173, Extension Border No. 1152 (allowing for any irregularity in the size of the room or bays), Cornice No. 1130, and Mitre Leaves.

WORDS are living thoughts, and a small drop of ink falling like dew upon a thought produces that which makes hundreds, perhaps thousands, think. We want to reach the man who has not thought about METAL CEILINGS.

(Ref. 594.)

The artistic treatment of modern ornament applied to the rich molded and embossed bands running in continuity throughout the panels No. 1164 produces a fine coffered effect in the ceiling. This illustration shows a surface of 17ft. 0in. x 13ft. 0in. The centre bay is formed of panels in multiples of 24in., inequalities in the size of the room being allowed for in the filling border between the panels and cornice. This style of ceiling is excellently suitable for Banking Chambers, Insurance Offices, &c., &c.

THERE is no economy in patching a defective ceiling; avoid the possibility of your ceiling cracking and falling in pieces by installing Wunderlich Metal Ceilings, a simple and effective method of overlapping close-jointed sheeting, stamped in modern art designs. These registered designs are exclusive. Your room will have a distinctive charm. Send for illustrated catalogue and price list.

(Ref. 676)

This illustrates No. 1341 Panels, 24in. x 24in., set in deep embossed moldings, with heavy bosses at intersections. The centre portion covers a space of 13ft. x 10ft., the design being 3 feet centre to centre. For rectangular rooms of unequal sizes a border filler will be found necessary to take up the irregularities in measurement between the Panels and the Cornice. We stock a wide range of Cornices for this class of ceiling, suitable for Dining and Ball Rooms, Banks, Insurance Offices and public buildings, etc.

WUNDERLICH METAL CEILINGS

Supplement No. 23
Catalogue Section II.

WUNDERLICH Specimen Ceiling Illustrations are issued with the object of showing the effective combinations and designs that can be produced in Metal panels applied to Ceiling decoration. We have exceptional facilities for the production of Metal Ceilings, being the pioneers of this Australian industry. With the experience of a quarter of a century of the Australian Ceiling trades and the Australian climatic conditions, we are producing a Ceiling material that fulfils all hygienic requirements, it is artistic, permanent and fire resisting. Being easy to fix these materials can be erected by any tradesman. Catalogue FREE on request.

This illustration of Ceiling panelling is composed of No. **1355**, the centre portion covers a space of 12ft. x 8ft. Molding, Border Filler and Cornice to suit size of room can be selected from Wunderlich Catalogue of Metal Ceilings

WUNDERLICH METAL CEILINGS

Supplement No. 25
Catalogue Section I

OR twenty-five years we have manufactured and put our TRADE MARK on Wunderlich Metal Ceilings. For twenty-five years we have devoted all our energy, all our time and artistic ability to make the Wunderlich Manufactures the most effective materials for ceilings and walls. To-day the name "Wunderlich" on metal sheets means as much in the Building Trade as the Hall Marks mean to the Jewellers.

This illustrates the Panel for a Ceiling. It is composed of No. 1021 Corners, 2ft. x 2ft., and No. 1022 Extension Panel, 2ft. x 1ft., enclosed with enriched Mould and Border No. 1047. Cornice to suit the size of room can be selected from our Catalogue of Steel Manufactures.

WUNDERLICH METAL CEILINGS

Supplement No. 41.

Catalogue Section II.

FOR Public Halls, Theatres, Warehouses, Shops, etc., Wunderlich Metal Ceilings are specified by all leading Architects. Property Owners appreciate the value of the Wunderlich Manufactures as a permanent and durable Ceiling, which enhances the value of their investments.

An Insurance Company has written to us with reference to a fire: There appears to be very little doubt but that had the Ceilings been of usual construction the whole place would have been burnt out. Your STEEL CEILINGS PREVENTED THE FIRE breaking through the roof."

This handsome modern panel illustrates No. **1167** pattern, A large Ceiling divided into bays of this pattern gives a rich design at a minimum cost. The patterns are 24 inches square and are obtainable in stock size sheets 6ft. x 2ft. Molding No. **205** and Border Filler No. **464** are shown enclosing the panel. Suitable Cornices for the size of room can be selected from Wunderlich Catalogue of Metal Ceilings. Designs and Estimate submitted on receipt of plans and particulars. Catalogues **FREE** on request.

WUNDERLICH METAL CEILINGS

Supplement No. 92
Catalogue Section II

THE reputation of the Wunderlich Ceilings has stood the test of a quarter of a century in the Australian building trades. Architects and Builders specify them in their contracts. The fully illustrated Wunderlich Catalogue of Ceiling patterns enables the home builder to select designs consonant with the architectural details and furnishings of their rooms. The surface of a Metal Ceiling is already prepared for the application of the artist's eye or elaborate scheme of colour decoration. Colours and tints suggested by the furnishings of a room can be carried out in walls and ceilings with economy and good taste; moreover, the Metal Ceiling presents an hygienic surface that can easily be cleaned by the application of soap and water with a sponge or brush, thus preserving the beauty of the decorations in all their pristine clearness.

Reproduced from a photograph of a Wunderlich Metal Ceiling, composed of Pattern No. 1351, size of pattern 24in. x 24in. The centre portion covers an area of 12ft. x 8ft., enclosed with moulding border and cornice. A large selection of designs for Cornice, Frieze, Border and Mouldings to suit various size rooms and styles of architecture may be selected from the catalogue, which will be forwarded post free on application.

WUNDERLICH METAL CEILINGS

Supplement 93.
Catalogue Section II.

ONE of the first considerations of the home builder is sound Ceilings for his dwelling. Our experience, extending over a quarter of a century, and the rapid development of the Metal Ceiling industry in Australia have made the reputation of the Wunderlich Metal Ceilings. On our guarantee you build a reliable Ceiling when selecting materials illustrated in the Wunderlich Catalogue.

K-1, 7911

A complete portfolio of this Ceiling is comprised in a leaflet No. 1351, placed on the right-hand side of the page. A cornice to suit the size of Ceiling can be selected from Wunderlich Metal Ceiling Catalogue. This catalogue is posted free on request, and contains information how to fix and decorate Metal Ceilings. It will please and interest you.

WUNDERLICH METAL CEILINGS

Supplement No. 106

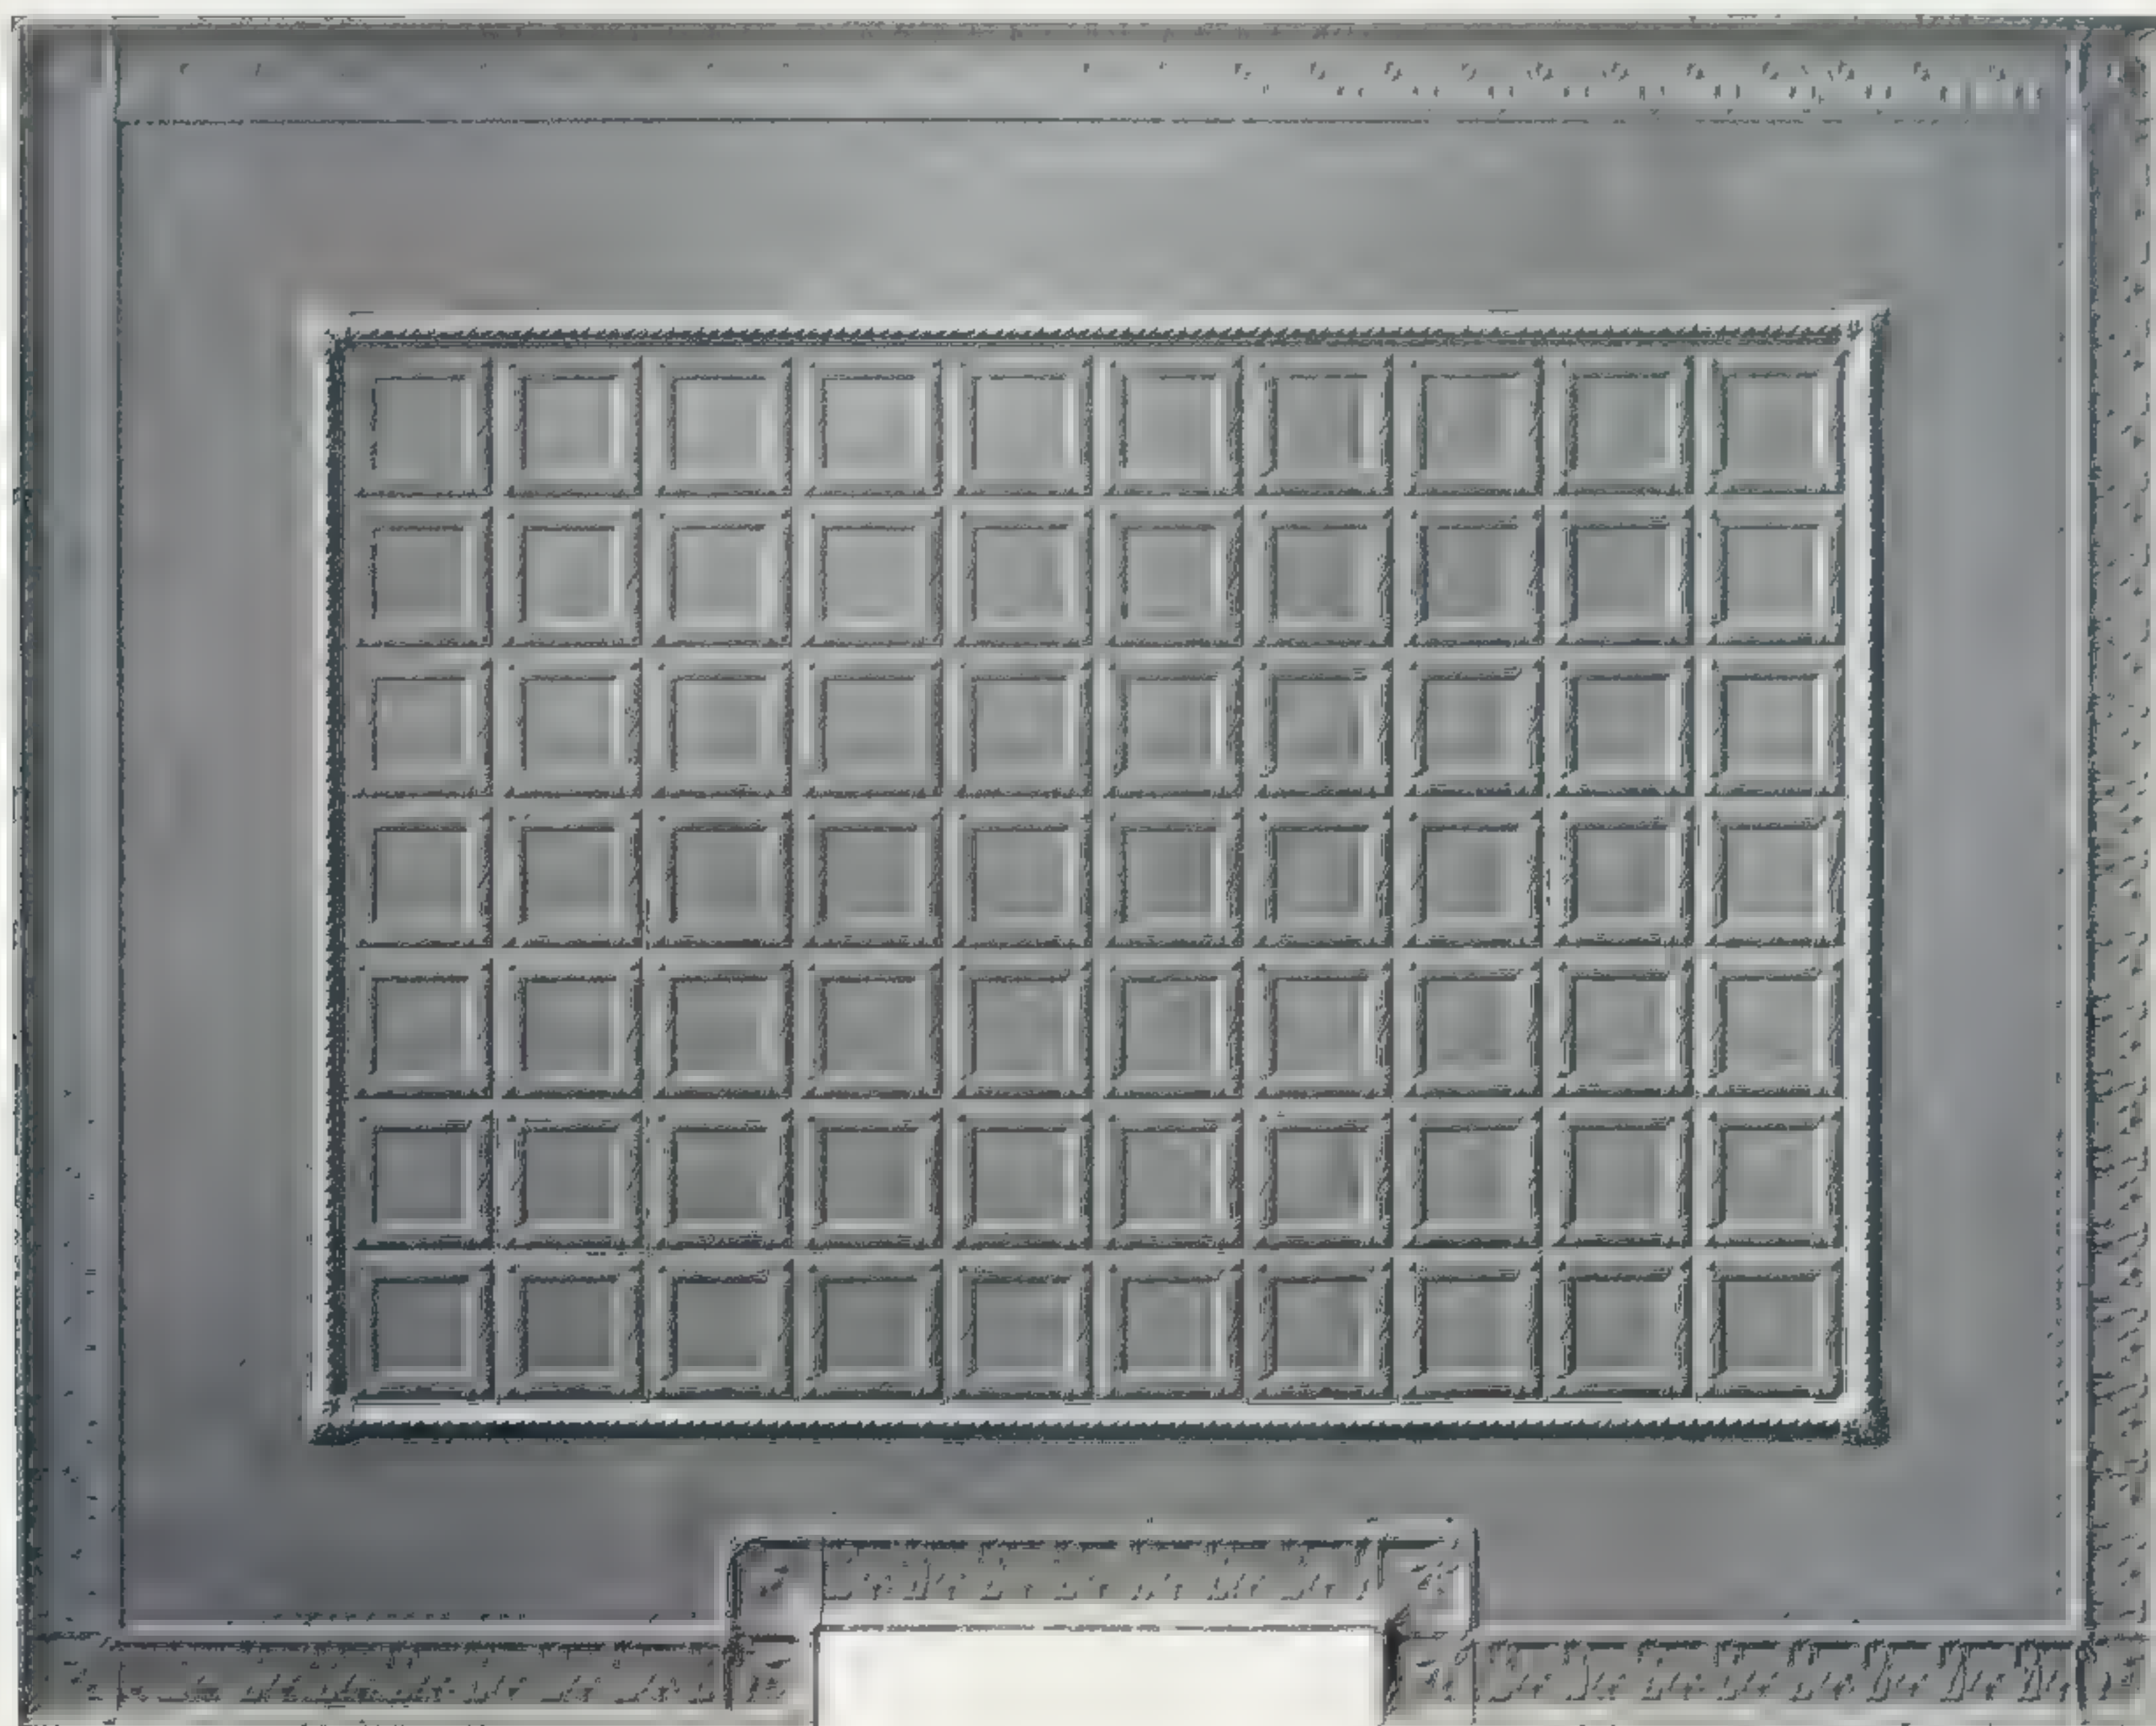

Catalogue Section II

BEAUTIFUL home derives its beauty largely from the decoration and furnishing. The Wunderlich Metal Ceilings, designed to correspond with the architectural styles, lend themselves to unique decorative effects. The public are quick to note appearances. People like to be up-to-date. The Wunderlich Ceilings express the greatest spirit of taste and elegance in the surroundings of the modern home. They are beautiful in design, superbly finished, practical and durable. They are easily fixed by any tradesman. We use only the best materials and employ highly-skilled labour, consequently the public recognise that the Wunderlich Trade Mark is their guide and guarantee from us that full value will be received in every instance.

TRADE MARK

(Rd 791)

This Ceiling, designed to meet the requirements of the cottage home, is composed of Diaper Sheeting, No. 1352, pattern 12in. x 12in. (stock size sheets, 6ft. x 2ft.) enclosed with a rich embossed Molding, No. 499, and Corner Bosses. The Border Filling, No. 1152, is supplied in strips of any width up to 24in. wide, and is used to provide for any irregularities in the size of a room. Cornice Border Molding, No. 1314, with Mitre Blocks for angles, forms a neat and effective finish to a room at a minimum of cost.

Estimates submitted on receipt of plans and size of rooms.

WUNDERLICH METAL CEILINGS

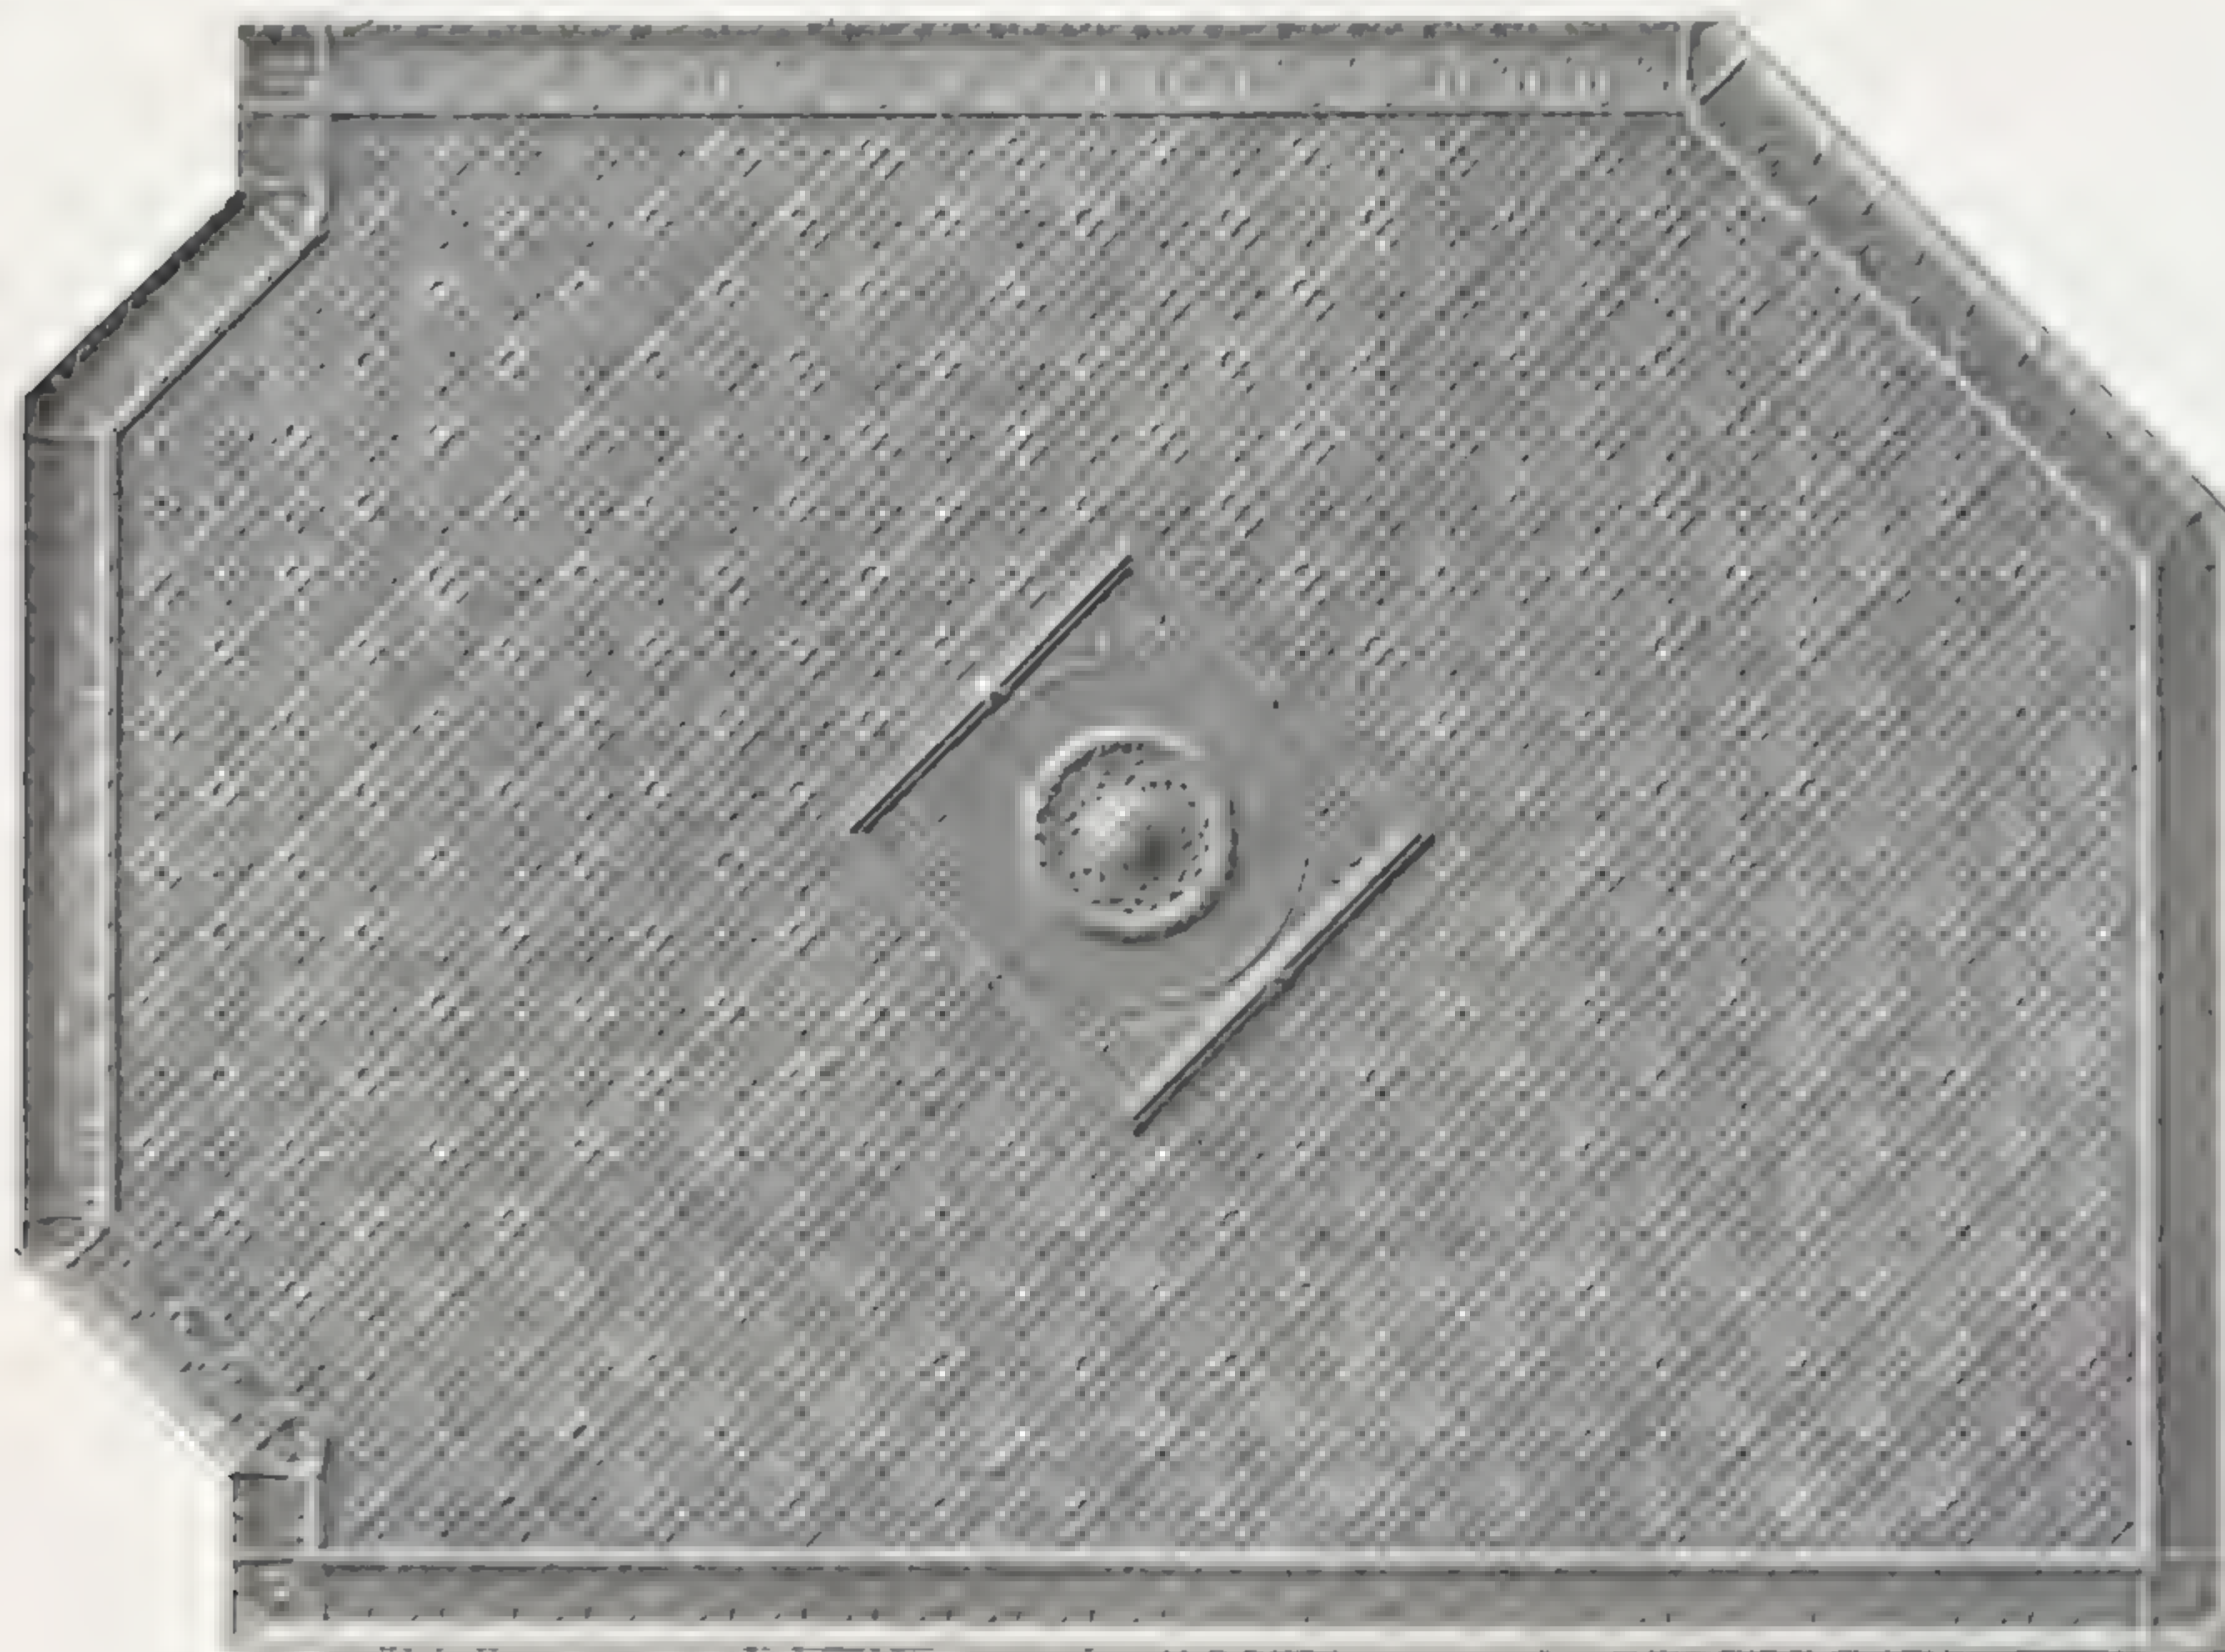

Supplement No. 107.

Catalogue Section II.

1910.

THE WUNDERLICH CEILINGS are designed to suit all styles of architecture. These Ceilings can be maintained in first-class order with less labour and expense than any other form of Ceiling, and offer one of the very best investments.

Should you not see any designs to suit your requirements, please communicate with us, as we are constantly preparing original designs to suit our customers' own tastes.

This illustration is reproduced from a photograph of a Ceiling with Bay Window and Angle Fire place. The main body or ground of the Ceiling is covered with pattern No. 1115. The Centre piece is composed of Nos. 987 and 1095 (perforated for ventilation). The Cornice Border Molding, No. 1314, shows the application of mitre blocks to finish the angles, also for regular octagonal internal and external mitres.

ESTIMATES GIVEN FOR ANY SIZE ROOMS.

WUNDERLICH METAL CEILINGS

Supplement No. 118.
Catalogue Section II.

THE WUNDERLICH METAL CEILINGS possess distinct individuality. There is no limit to the versatility of designs that are produced from our patterns.

The materials possess the unique advantage of adaptability; moreover, the simple and easy method of fixing and the low cost of transport offer exceptional facilities to the country resident to obtain a reliable and artistic Ceiling at a minimum of expense.

(Reg. 865.)

This illustration is from a photograph of a Wunderlich Metal Ceiling composed of a Centre bay 10ft. x 6ft., panelling No. 1376, enclosed with Moulding and Bosses; small border patterns as shown in Catalogue may be used for the surround; this can be cut to adjust any irregularities in the size of the room. Adequate ventilation is provided by inserting centre flowers. The cornice shown is No. 1129 (9½in. projection). Suitable cornices for the size of any room may be selected from the Wunderlich Catalogue. Catalogues free on request.

WUNDERLICH METAL CEILINGS

Supplement Z.B. 128.
Catalogue Section II.

HE WUNDERLICH MANUFACTURES are known for Excellency of Product, Accuracy in Fitting, Reliability and Low Cost; moreover, the Wunderlich Metal Ceilings are particularly adapted to the requirements of the Australian home; light in weight, it can be transported at a minimum of expense and trouble in the handling.

This illustrates a portion of a Ceiling design showing the adaptability of No. 1377 as a Centre Panel with Molding No. 1173; the ground or filling is formed of Diaper No. 1332, with Extension Border and Corners Nos. 1069, 1070 surround. To avoid cutting the pattern of No. 1070 a filling strip, No. 875, is used between Border and Cornice to take up any irregularities in the measurement of a room. Cornice No. 1382 forms an appropriate finish for a medium size Ceiling. Designs and Estimate for complete Ceilings supplied on receipt of measurements.

WUNDERLICH METAL CEILINGS

Supplement Z.B. 129.
Catalogue Section II

Wunderlich Metal Ceilings
ground work for the most delicate tints of the Drawing Room or the rich decorations of Theatres and Public Halls. Moreover, the sharpness of the intaglio of the die is faithfully reproduced in each sheet and pattern of the material, ensuring a perfect fitting of all parts and the uniformity of the design throughout

A portion of Ceiling design showing Centre panelling of No. 1381 pattern enclosed with Moldings No 205 and Quadrants No. 1338; the Extension Border No. 1060 is relieved in the centre of each side by the insertion of any suitable panel (in this design No. 1135 panel is used) which allows of the border pattern being cut to take up any inequalities in the measurement of the sides of the rooms. Cornice No. 1385, or any suitable Cornice for the size of the Ceiling, may be selected from the Wunderlich Catalogue. Estimate and designs on application. Catalogues post free.

WUNDERLICH METAL CEILINGS

Supplement Z.B. 130.
Catalogue Section II.

RACTICAL Utility, Economy and Permanency are the established records of the Wunderlich Metal Ceilings. Attractive designs for every room in the house, from Drawing Room to Kitchen. Elegant Ceilings and Wall Linings for Halls and Theatres, where its acoustic properties have been fully tested and approved by eminent artists.

This illustration of a Ceiling shows No. 1381 pattern, covering an area of 14 ft. x 10 ft. A Molding and Border Filler is used between Panel and Cornice; this takes up any inequalities in the measurement of the sides of a room. Cornice No. 1363 shows a bold treatment for this class of Ceiling design; the top Molding of this Cornice coincides with the section of Molding No. 1361. A rich panelled effect can be obtained by the use of this combination. Designs and price for complete Ceilings on application. Catalogues post free.

WUNDERLICH METAL CEILINGS

Supplement No. 135.

Catalogue Section II.

WUNDERLICH CEILING DESIGNS, selected in their application to the architectural surroundings, are most appropriate for Churches, Schools, Halls, etc. Artistic, durable, and easy to fix, they are more economical than any other form of Ceiling.

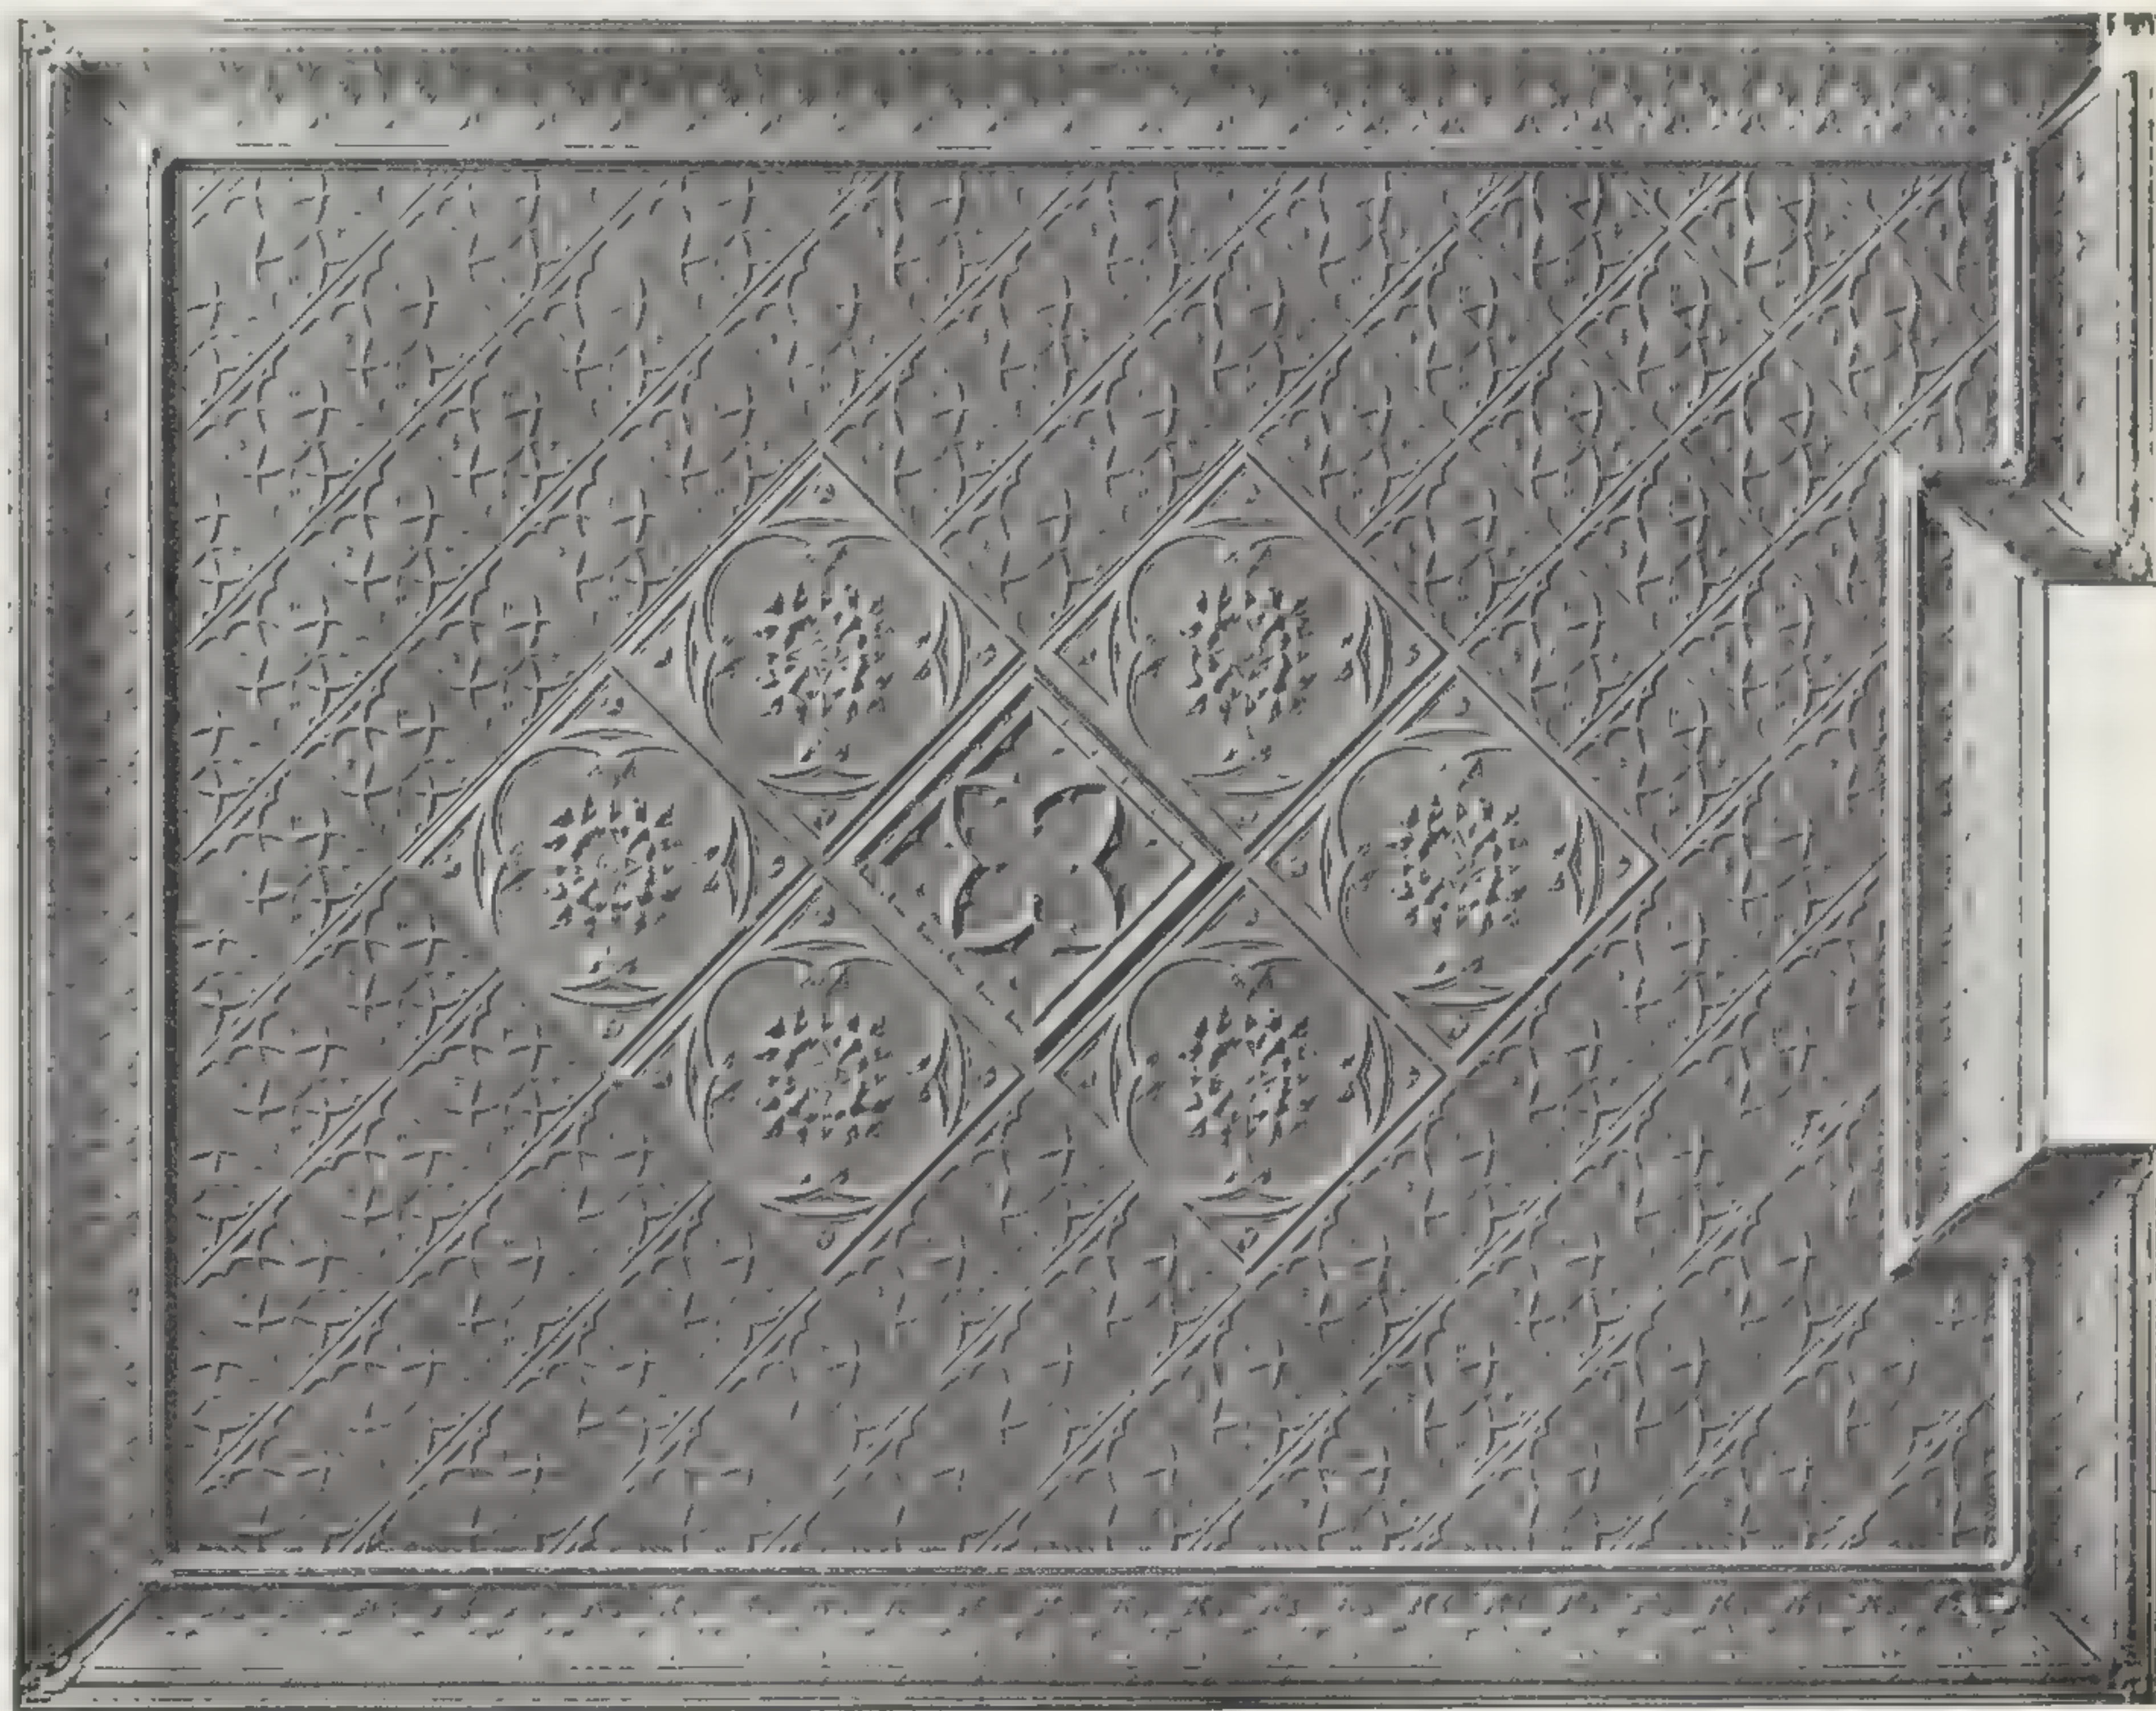

This illustration represents a selection of Gothic patterns applied to domestic architecture. The design is composed of Cornice No 1109 (and Mitre Leaves), or Filler No. 1387, Moulding No. 201, Corner Spandrels No. 885, Diaper Filling No. 1396, Centre Flower No. 474. On receipt of plans and sizes we will fit Design and Estimate for any size Room, Hall or Church Ceiling. Coloured illustrated descriptive Catalogue post free on application.

WUNDERLICH METAL CEILINGS

W

UNDERLICH CEILINGS now occupy a conspicuous place in Architects' Specifications for modern Churches, Schools, Halls, etc., on its excellent acoustic properties, safety from fire, hygienic and economic values.

Reproduced from a photograph of a Wunderlich Metal Ceiling in Domestic Gothic design, composed of Cornice No. 1109 (and Mitre Leaves), Diap No. 1398, Centre Bay Panelling No. 1399, and Deep Molded Steel Panel No. 1075. The feature of the Centre Bay can be extended for rectangular shaped Halls. There are many designs in Gothic Tracery Panels and Fillings suitable for Ceilings, Dado and Wall Linings illustrated in the Wunderlich Catalogue sent post free to any address.

WUNDERLICH METAL CEILINGS

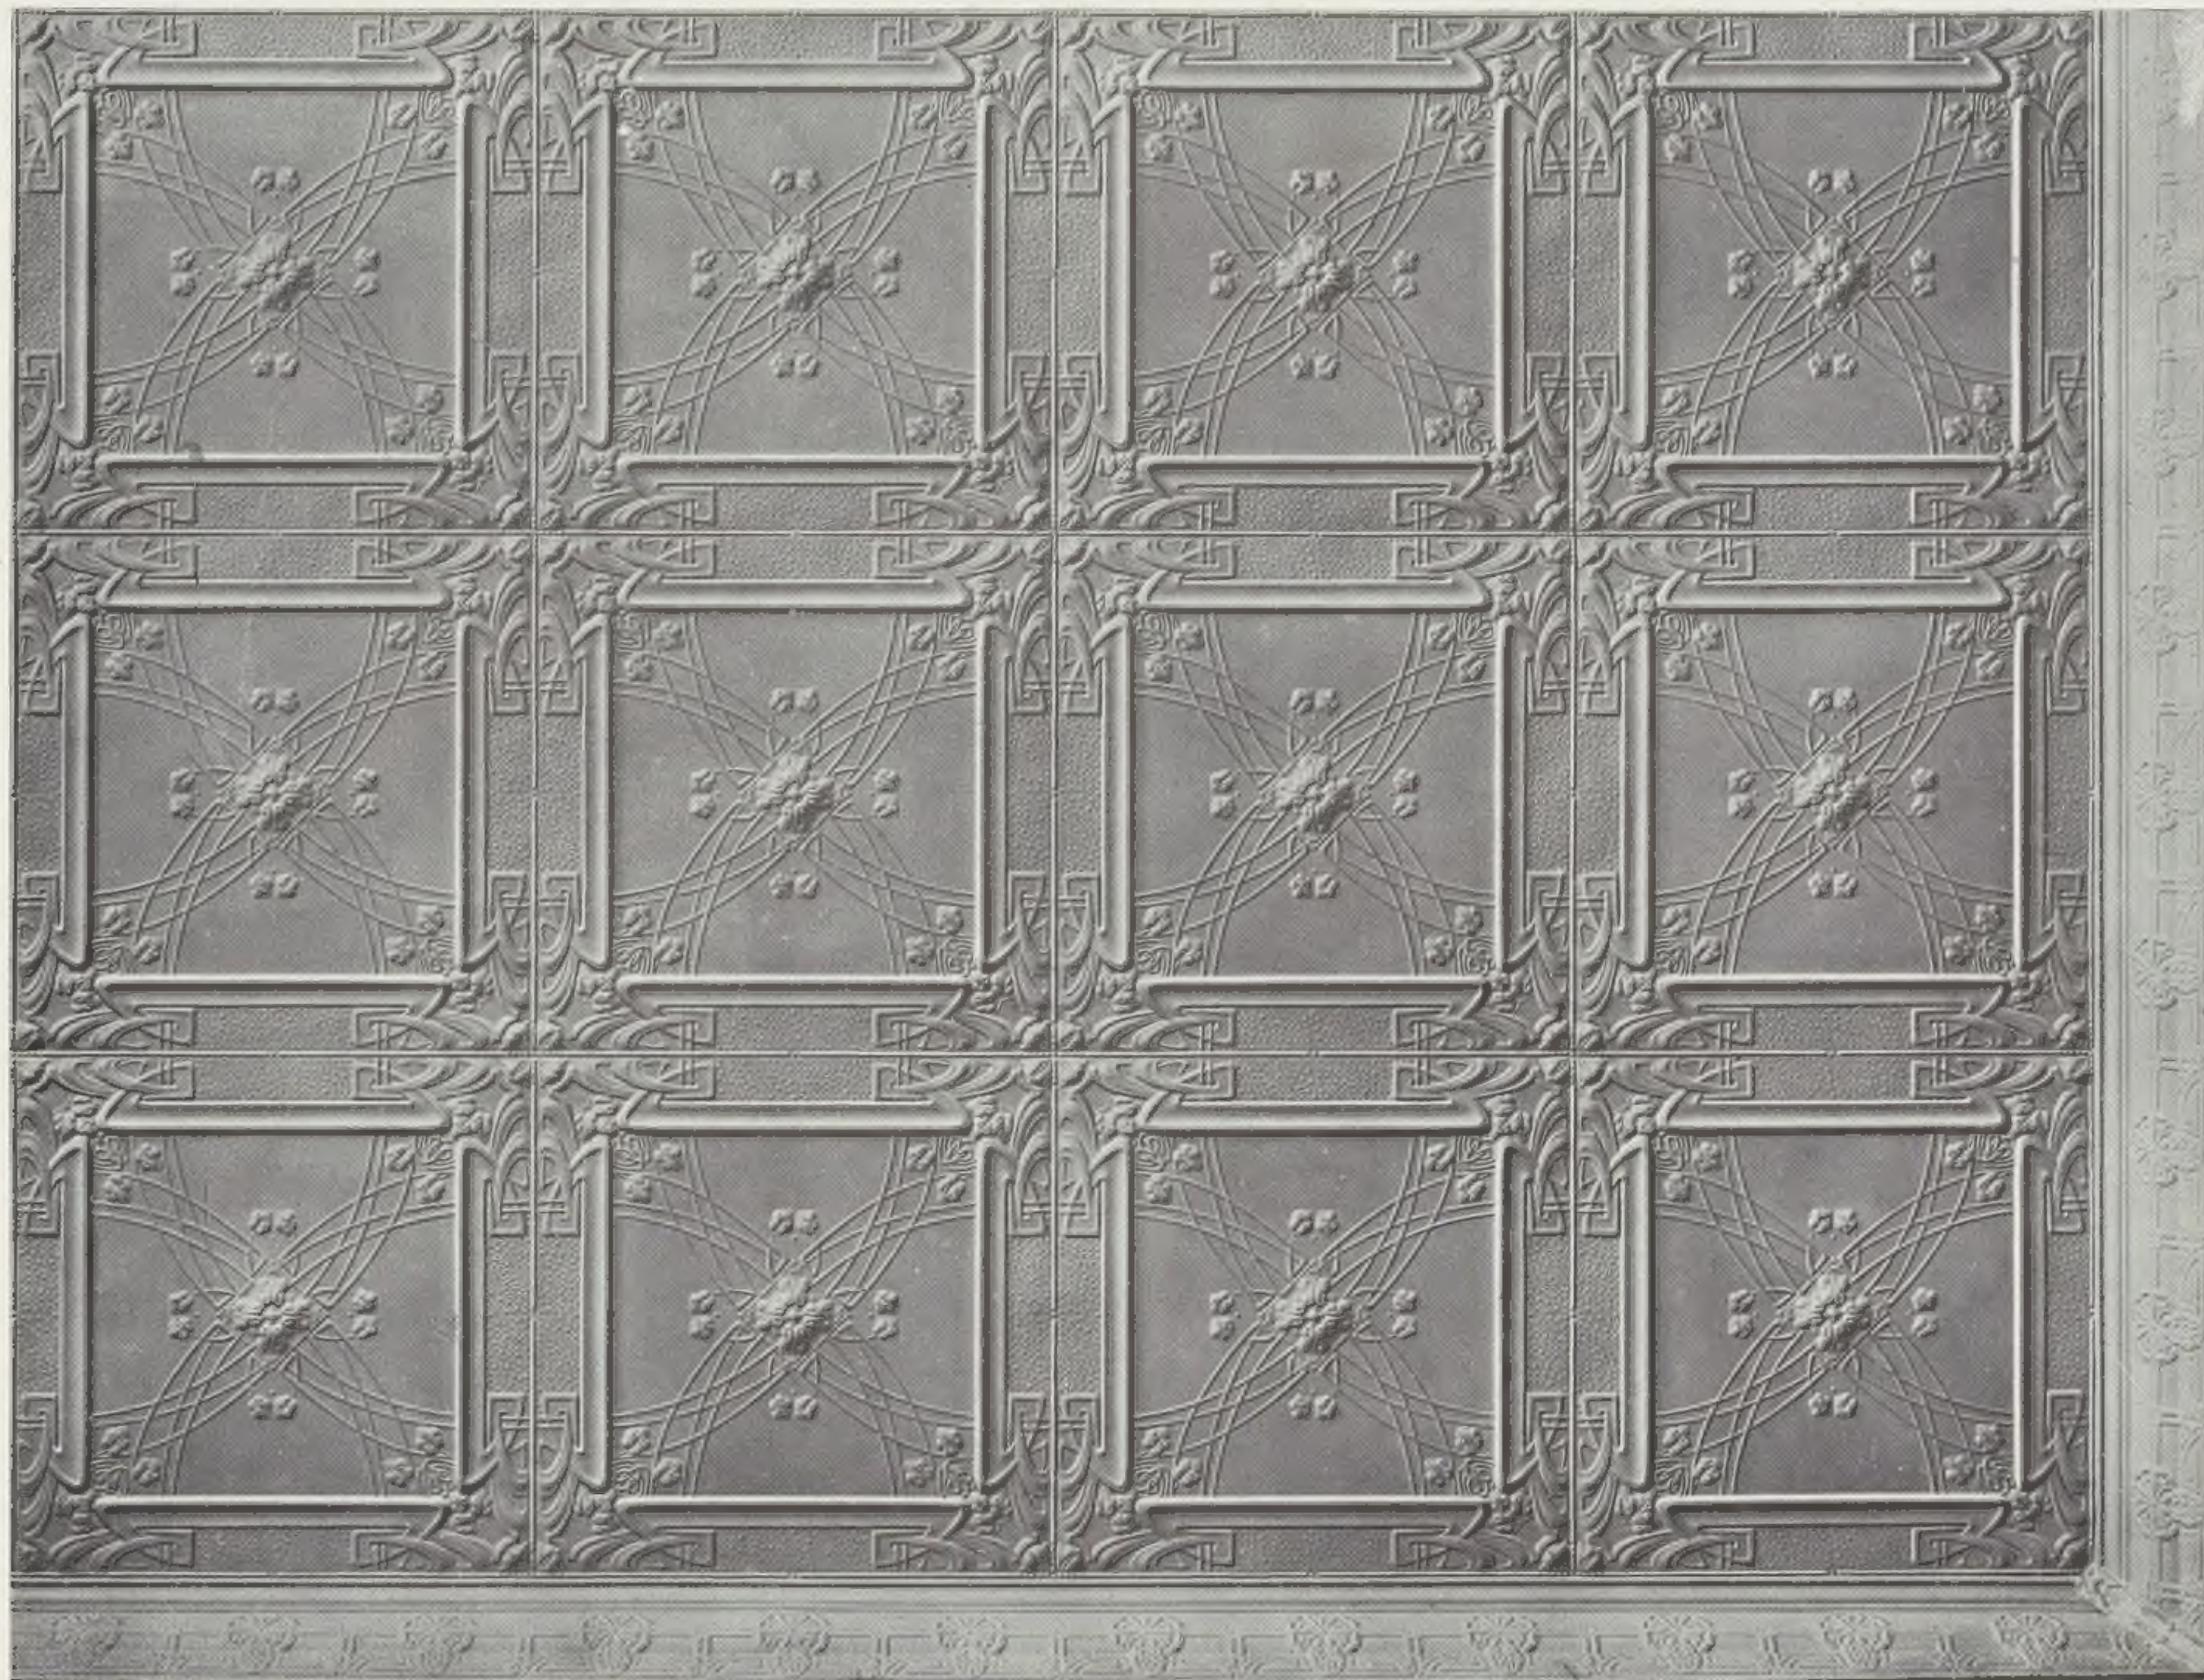

Supplement

Z.B. 141.

Catalogue Section I

THE Original Wunderlich Ceilings: There is nothing so attractive in any other material in Australia. Designed by our own Artist-staff, the patterns are our own exclusive Copyright.

They are an essential factor in the rapid building or renovation of properties, a fire retardant, and a profitable investment for merchants contemplating the erection of, or alterations to, shops and warehouses.

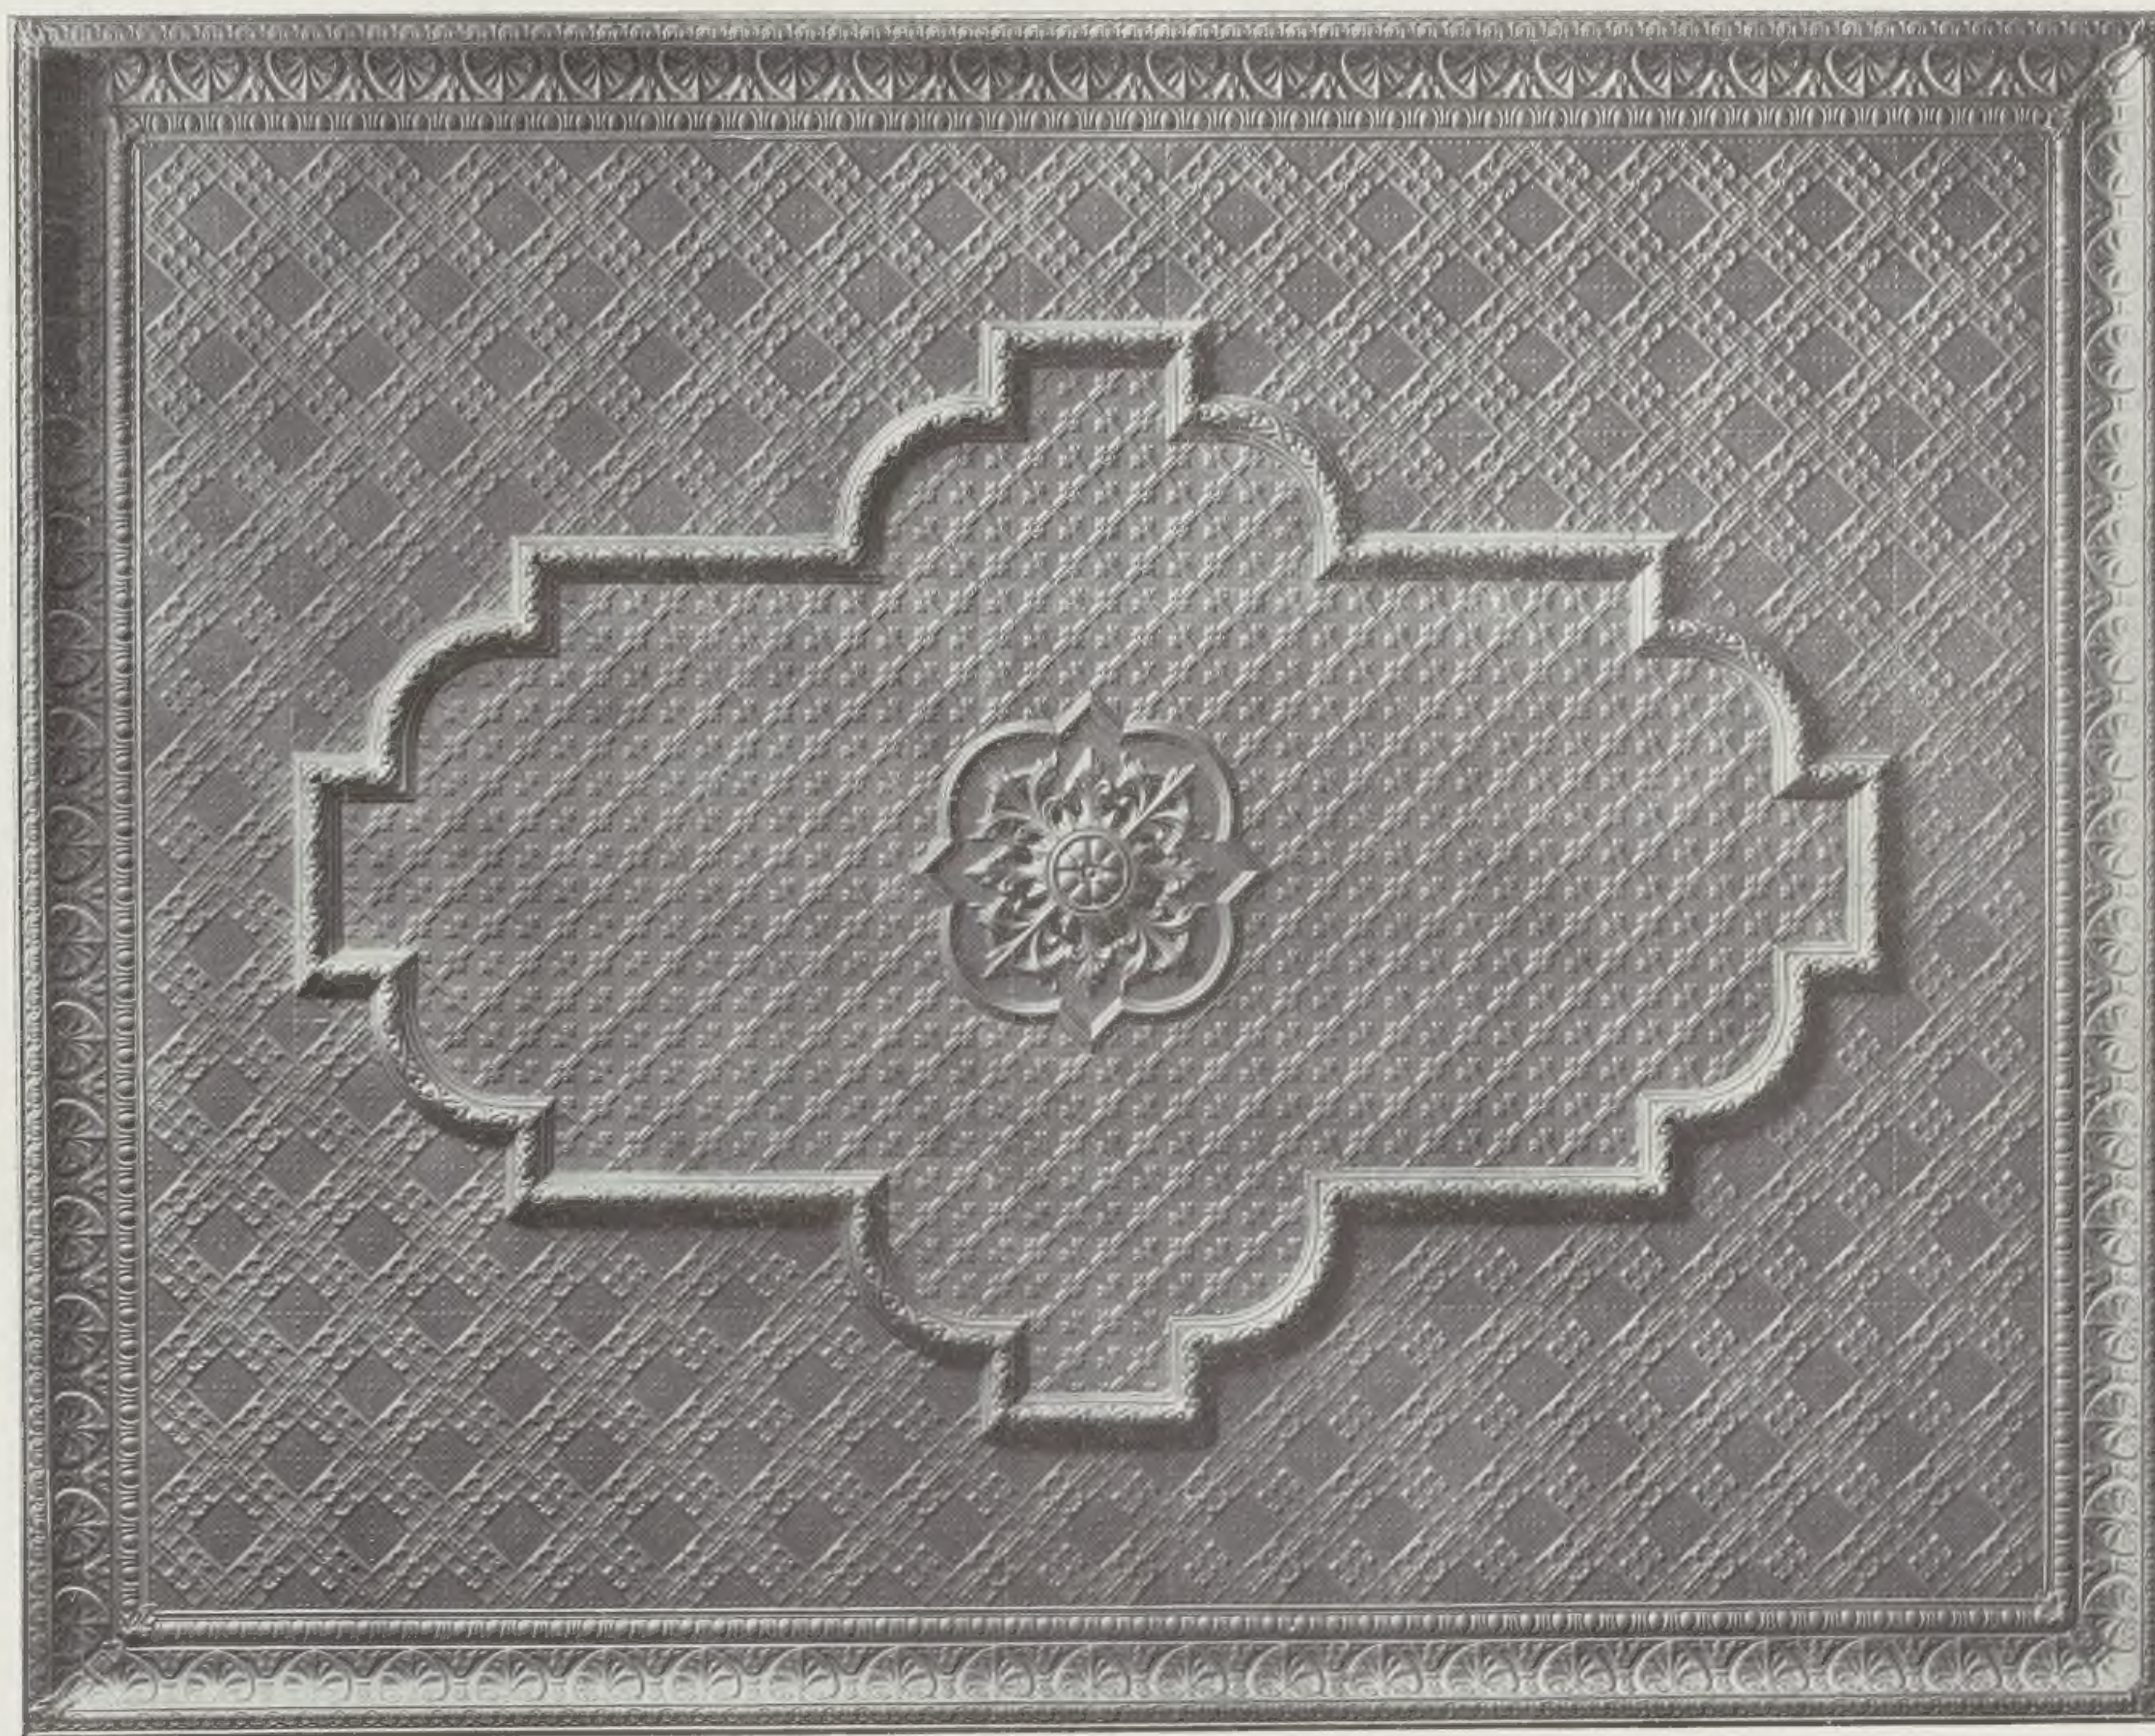

This illustration is from a photograph showing portion of a Ceiling composed of pattern No. 1392, covering an area of 12ft. x 9ft. Cornice No. 1382 is shown on two sides.

WUNDERLICH LIMITED, Manufacturers. Agencies and Branches throughout the Commonwealth, New Zealand, India, China and Japan.

WUNDERLICH METAL CEILINGS

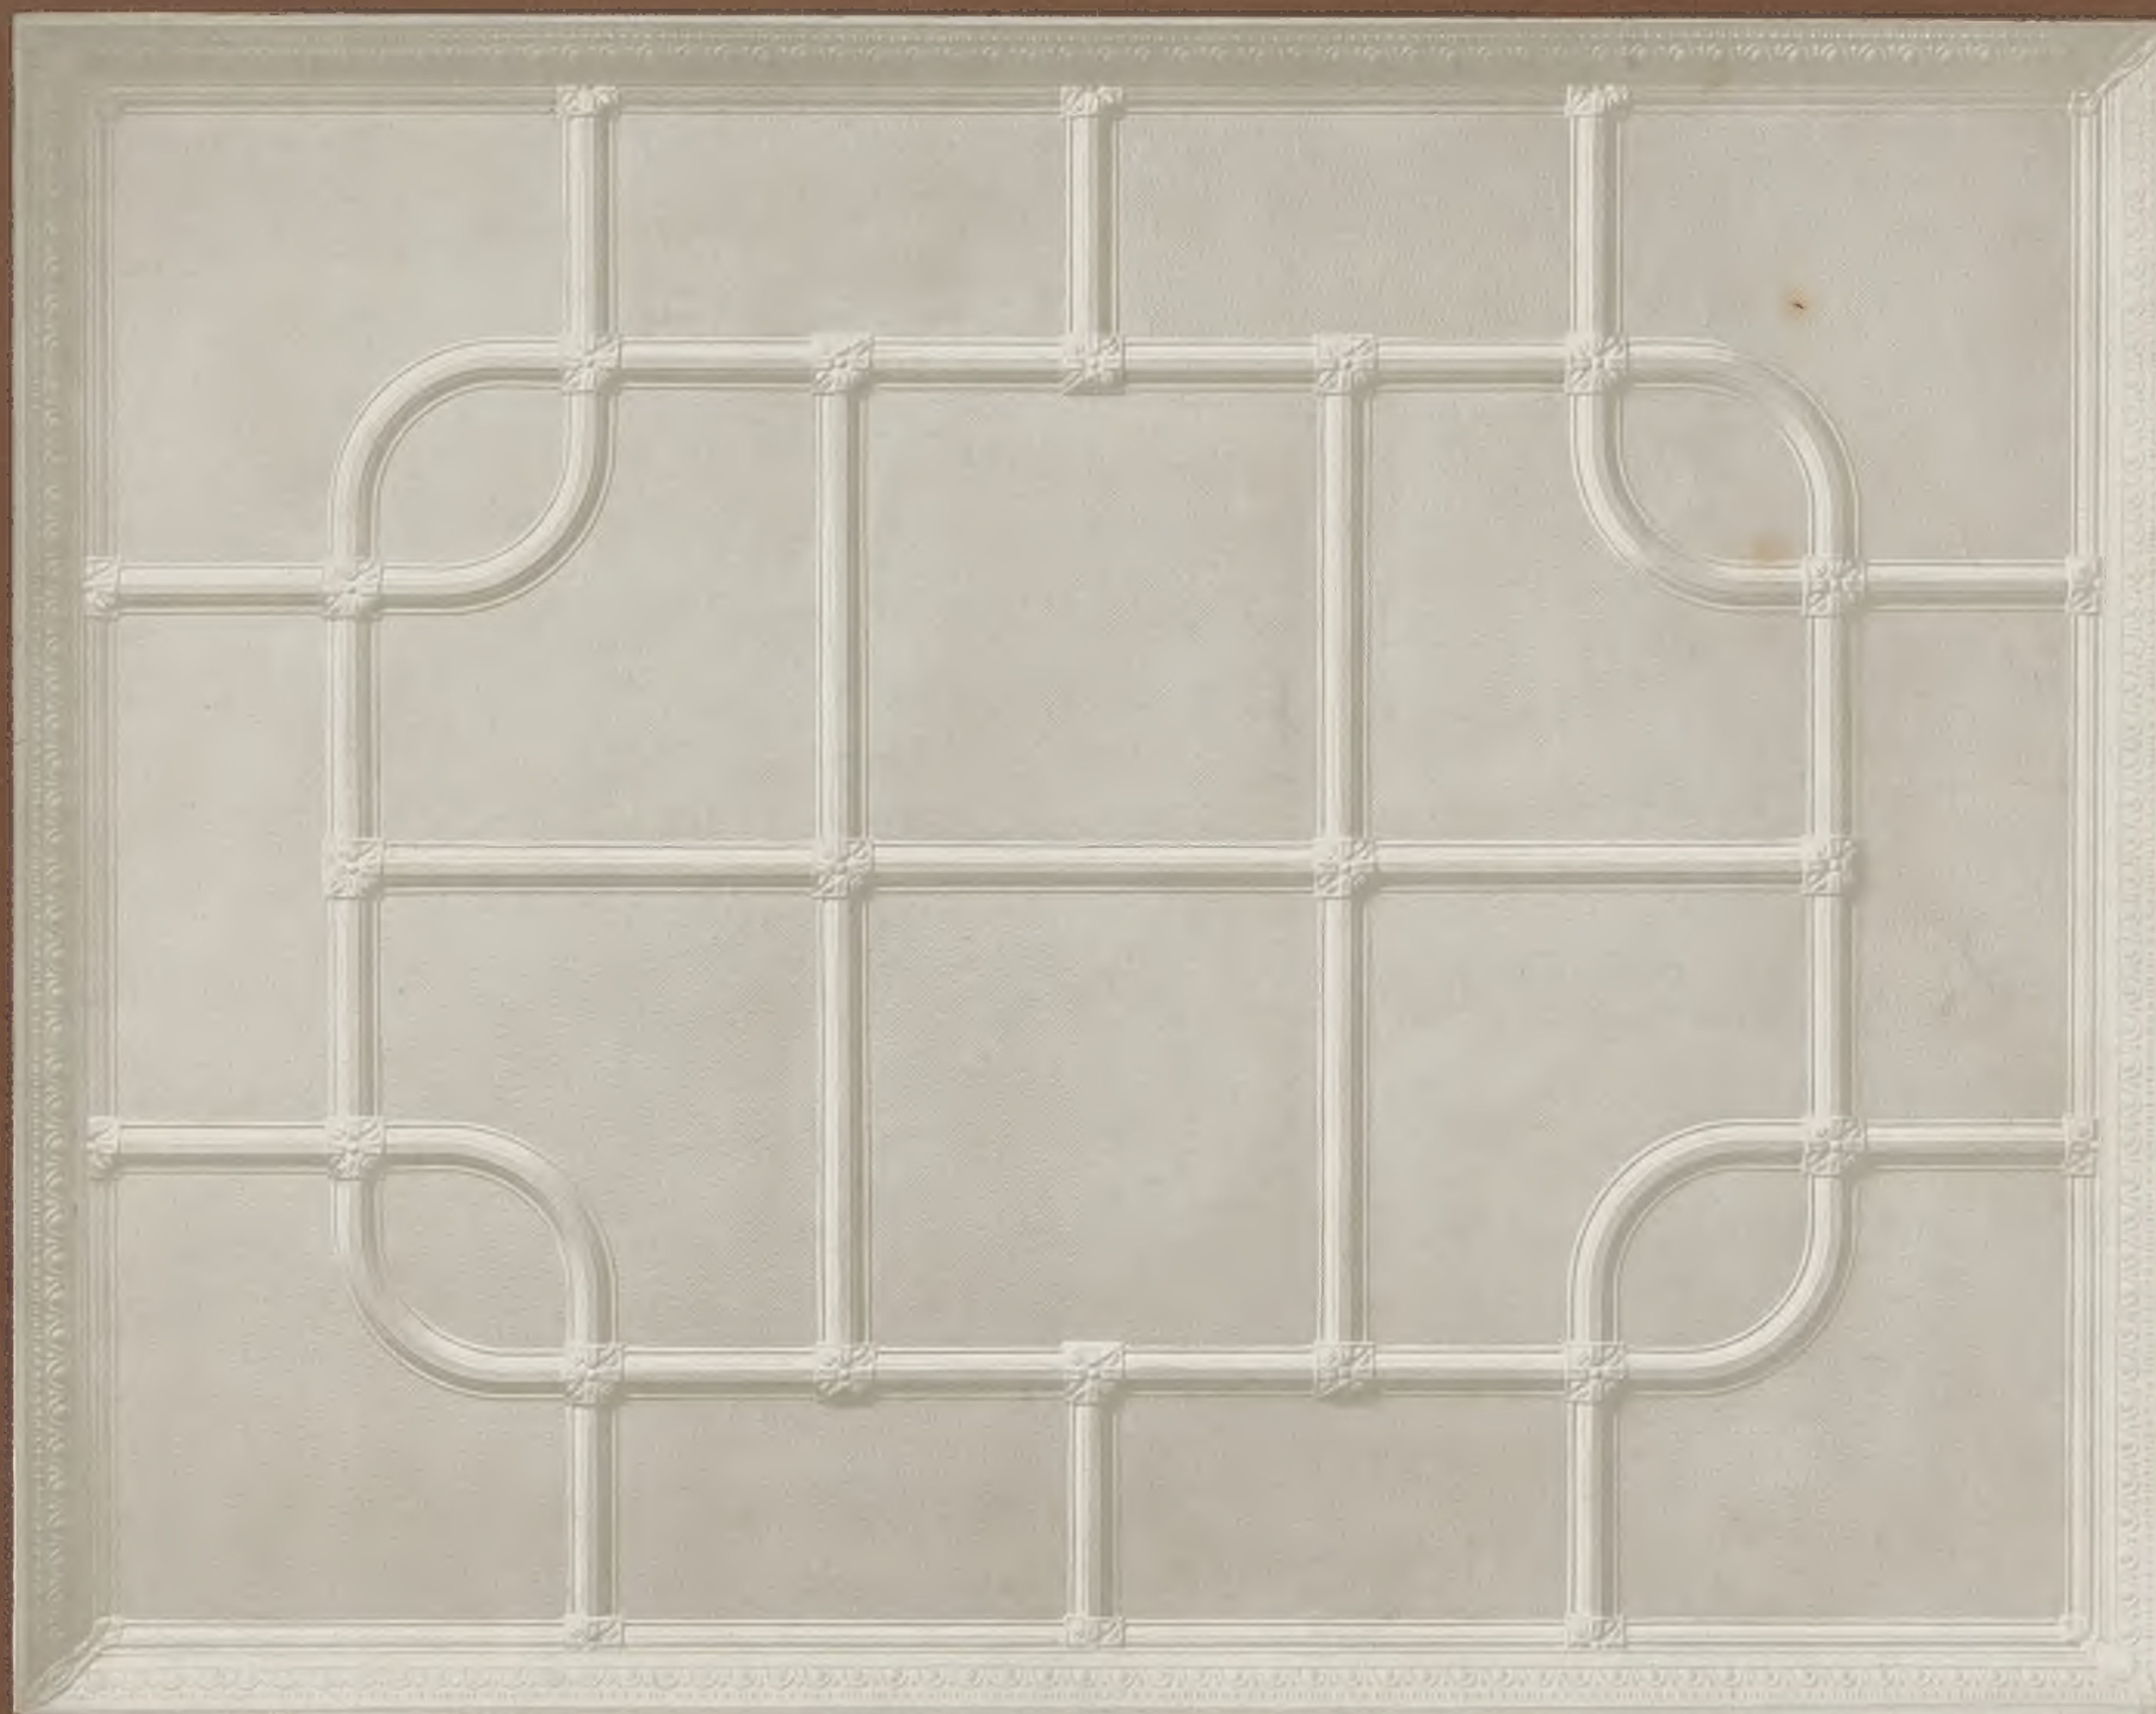

OUR Catalogue is replete with designs and suggestions for Metal Ceilings, Frieze, Wall and Dado Lining, and the adaptation of Stamped Metal Work for the Exterior of Buildings, Cottages, Shops, Warehouses, etc., etc.

This design, reproduced from a photograph, illustrates one of the many methods of using Mouldings and Diaper Fillings to form a Panelled Ceiling. Cornice No. 25 (and Mitre Leaves), Body Filling, Diaper No. 1115, Moulding No. 209, with Quadrants No. 1339, grouped to form Panel, Panel Filling, Diaper No. 1008 or 1366. Centre Flower No. 907.

WUNDERLICH LIMITED. Manufacturers. Sydney, Melbourne, Adelaide, Perth, Brisbane, Hobart, Launceston, and Wellington, N.Z.

WUNDERLICH METAL CEILINGS

This illustration represents a Wunderlich Ceiling composed of Stucco Sheeting No. 1360 (stock size sheets 6ft. x 3ft.), with Cover Mouldings and Bosses No. 1361. A Moulded Quadrant No. 1365 is used in this Ceiling design to form a Corner Pattern with the Centre Bay and Border Panels. These Mouldings and the top member of Cornice No. 1363 are the same in section, thus a complete finish to the panels is formed, and the size of the panelling can be adjusted to suit the measurements of the rooms to be ceiled.

WUNDERLICH LIMITED. Manufacturers. Sydney, Melbourne, Adelaide, Perth, Brisbane, Hobart, Launceston, and Wellington, N.Z.

WUNDERLICH METAL CEILINGS

Supplement
No. 10.
Catalogue Section II.

Bold effects and rich detail can be obtained with Wunderlich Stamped Art Metal. This illustrates a portion of a Ceiling in the Bank of New South Wales at Wanganui, New Zealand.

Deep panelled bays are formed by encasing the girders with Metal Cornice and Soffits supported on Consoles; in each panelled bay ample ventilation is provided by the use of Perforated Metal Centre-flowers.

WUNDERLICH METAL CEILINGS are particularly adapted for use in Public Buildings, Halls, Theatres, etc.—easy to fix, light for transport. Plans and Estimates prepared on receipt of particulars.

WUNDERLICH LIMITED, Manufacturers. Sydney, Melbourne, Adelaide, Perth, Brisbane, Hobart, Launceston, and Wellington, N.Z.
